October 24, 2000

***To the Citizens of the Commonwealth of Massachusetts,
Governor Argeo Paul Cellucci, and Honorable Members of the
General Court***

I am pleased to report that as of June 30, 2000, the financial condition of the Commonwealth remains sound. Over \$1.6 billion, or approximately 7.1% of budgeted revenues, is in the Commonwealth's Stabilization Fund, sometimes called the "rainy day" fund. With the fund nearly at the maximum, the Commonwealth is preparing for that inevitable rainy day.

The fund balance in the budgeted funds at the end of the year reflects a prudent fiscal strategy. Year-end transfers of budget surpluses were made to the capital projects funds to make strategic investments for the management of the Commonwealth's capital budget, to defease high interest debt that otherwise could not be refunded and continue to increase reserves for an inevitable economic down turn. In connection with the supplemental funding of the Central Artery / Tunnel Project and Statewide Road and Bridge Program, \$650 million in operating surpluses from fiscal 2000 and prior years were set aside to defease high interest debt. This is in addition to \$400 million set aside during fiscal year 1999. The purpose of these transfers was to use the debt service savings for the project and for the statewide road and bridge program. An additional \$205.6 million was transferred to capital projects to finance projects that would normally be funded with general obligation debt. After these transfers, nearly \$2.3 billion, 14.6% of annual tax revenues, remained in the Commonwealth's budgeted funds, including the \$1.6 billion in the Stabilization Fund.

Probably the most significant change in the Commonwealth's financial management is the change in the financial relationship with the Massachusetts Bay Transportation Authority, (MBTA). For decades, the Commonwealth has been the payer of last resort for the MBTA. The Commonwealth recognized this liability 18 months in arrears. For years the difference between what the MBTA spent and took in as revenues was presented to the Treasurer as the request for a cash advance, which was paid and then budgeted by the Legislature in subsequent fiscal years. While the old law provided a number of procedures to control the growth in spending, this structure excluded the MBTA from the normal budgetary review process. In addition, because transit fares had remained level and contributions from cities and towns have a growth ceiling under proposition 2½, the bill to the Commonwealth included a disproportionate share of the increase in expense. Beginning in fiscal year 2001 (FY01) a new funding mechanism is in place. The Commonwealth will set aside 20% of sales tax revenues, along with amounts assessed on the cities and towns within the service district in a separate fund. The MBTA will control its

Total Cost of Forward Funding.....	<u>\$948,290,000</u>

own destiny by balancing its spending needs with available revenue sources, including this dedicated revenue stream from the Commonwealth. In addition, while the Commonwealth will continue to guarantee existing debt of the MBTA, it will not guarantee future debt issuance.

One crucial step in this process was for the Commonwealth to recognize the 18 month lag in operating subsidies previously financed through the loaning of cash reserves to the MBTA and the issuance of notes by the Commonwealth and the MBTA. Under this convoluted process, conceived in the 1960's, the calendar 1998 operating deficit of the MBTA was appropriated in the FY00 budget. In order to catch up, the Commonwealth needed to budget this lag (January 1999 – June 30, 2000) in FY00. The cost of this lag is \$848 million. This cost, along with \$100 million in working capital, was financed by \$325 million in General Obligation bonds, \$10.5 million in operating appropriations and a \$612.8 million in authorization in the capital projects fund. Additional bonds have been authorized to finance this final piece, but only if it is determined that it cannot be supported within the Commonwealth's cash flow. Otherwise it will be amortized over 20 years in the operating budget.

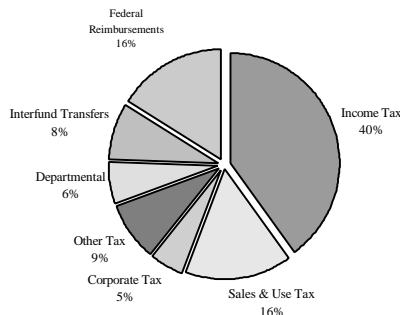

In accordance with Massachusetts General Laws, the Office of the Comptroller transmits the Statutory Basis Financial Report, (SBFR,) on or before October 31st. The SBFR report for fiscal year ended June 30, 2000 (FY00,) herein is audited by Deloitte & Touche, Independent Certified Public Accountants and represents the conclusion of financial activity and the closing of the Commonwealth's books on the statutory basis of accounting for the fiscal year. This audit is conducted in conjunction with the Office of the State Auditor, which provides knowledge, expertise and resources to close and audit the year.

This report includes the budgeted funds, non-budgeted special revenue funds, capital project funds, fiduciary funds and the non-appropriated funds of higher education.

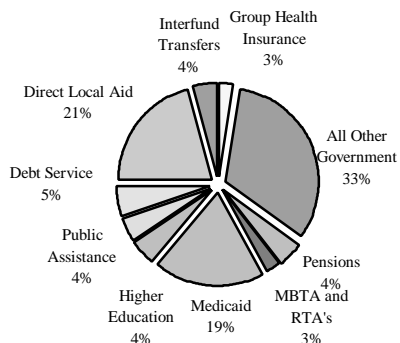

The financial operations of these funds are maintained in the Massachusetts Management Accounting and Reporting System, (MMARS). The statewide accounting system is operated by the Commonwealth and contains detailed information summarized in this report.

The SBFR is intended to satisfy the requirements of state finance law, and to present fairly the results of FY00 activity in the Commonwealth's funds. The report contains computations required by state finance law, including the certification of the Stabilization Fund and Tax Reduction Fund. The statutory basis of accounting, defined in Massachusetts's law, is typically used to budget and control fiscal operations. The statutory basis of accounting is not in accordance with generally accepted accounting principles, (GAAP,) as defined for governments by the Government Accounting Standards Board. I will report the Commonwealth's financial position on a GAAP basis in December, in our Comprehensive Annual Financial Report, (CAFR).

Budgeted Revenues and Other Sources

Budgeted Expenditures and Other Uses

Budgeted Funds

For fiscal 2000, sources of budgeted funds exceeded uses of budgeted funds, resulting in an “operating gain” of \$173 million. The gain is net of the \$500 million in transfers done at year-end to defease high interest debt as part of the Central Artery / Tunnel Project – Statewide Road and Bridge financing plan and \$205.6 million transferred to fund future capital projects.

More importantly, any gain or loss has to be viewed in a trend. Generally accepted standards indicate that a structural balance is achieved when revenues exceed expenditures over a period of multiple years. Before one time uses of surplus, the Commonwealth has a decade-long record of operating gains. The \$205.6 million transferred for capital outlay allows the Commonwealth to sell less in bonds in the future to pay for capital costs. The funds for defeasance allow the Commonwealth to pay less in the future for capital costs already bonded. When viewed in an overall fiscal context, this is sound policy.

In FY00, budgeted revenues and other sources grew 12.0% over FY99 reflecting a strong economy in the Commonwealth, even though a number of tax cuts were implemented that affected both earned and unearned income. Even more indicative of the strong economy is that budgeted tax revenue increased by 9.8% over FY99. From a multi-year perspective, the proportion of revenue sources by category to total budgeted revenues and other sources did not materially change from FY99 to FY00. Personal income, sales and corporate taxes continue to be the three largest sources of tax revenue for the Commonwealth.

Budgeted expenditures and other uses, including transfers, increased 10.7% from FY99 to FY00. The Budgeted Funds – Operations table on page 4 displays the FY00 summary of budgeted funds, compared to FY99. Financial statements for each of the 63 individual budgeted funds are included in the financial section of this report.

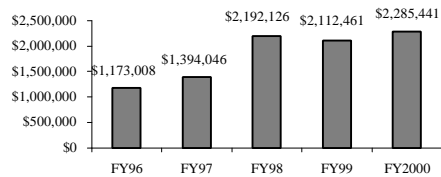

In conducting the budget process, the Commonwealth excludes those “interfund” transactions within the budgeted funds that, by their nature, have no impact on the combined fund balance of the budgeted funds. The table isolates this “interfund” activity from the budgeted sources and uses to align forecasts prepared during the budget process to actual amounts in this report. For example, the Budgeted Funds – Operations table on the following page, isolates the assessments on municipalities collected by the Commonwealth and paid to the MBTA and regional transit authorities. The dramatic increase in “total revenues” and “total expenditures” is the effect of \$3 billion in transfers among the three major operating funds of the Commonwealth. Those interested in trend analysis should consider the comparison of “budgeted revenues and other sources” to “budgeted expenditures and other uses” rather than the respective total lines. A detailed list of these interfund transfers is included in note #3.

Undesignated.....	386,893	391,330
Total.....	\$ 2,112,461	\$ 2,285,441

The graph of Budgeted Funds – Fund Balance, on the next page, shows the combined fund balance in the budgeted funds for the past five years. This “bottom line” perspective demonstrates the accumulation of resources attributable to balanced budgets over this period. The FY00 ending balance of \$2.3 billion is composed of three items. The aforementioned Stabilization Fund balance of \$1.6 billion is the largest component. The other components include \$391.3 million undesignated

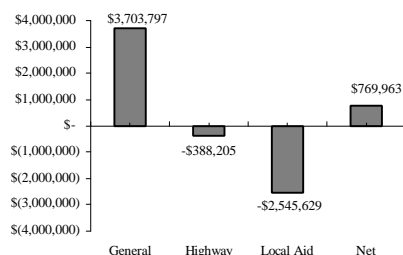

***Budgeted Funds – Fund Balance
(Amounts in Thousands)***

***Stabilization Fund
Fund Balance
(Amounts in Thousands)***

***“Consolidated Net Surplus”
Prior to Transfers
(Amounts in Thousands)***

surplus available for appropriation in FY01 and \$278.5 million reserved and designated for continuing appropriations and debt service. I cannot emphasize enough the importance of the balance in the Stabilization Fund and its direct correlation to the positive financial condition in the Commonwealth. State finance law, as amended during FY98, increased the maximum balance that may accumulate in the fund to a level of 7.5% of budgeted revenues and other sources. The law then directs that any amount in excess of this “cap” be transferred to the Tax Reduction Fund for future, one-time, personal income tax rebates. This “cap” for FY00 was \$1.7 billion.

The graph, Stabilization Fund Balance portrays this “cap” and the balance of the fund over a five-year period. Despite the Commonwealth’s positive financial condition, a few cautionary notes are merited. There are certain problems with the definitions in the state finance law, enacted in 1986 and continued with slight modifications to the present. A balanced budget, defined as the “Consolidated Net Surplus,” is the combined undesignated fund balance of the General, Local Aid, and Highway Funds. According to this restricted definition, fiscal balance was achieved in FY00 in the amount of \$769.9 million. However this definition excludes certain components of fund balance, such as reserves for continuing appropriations and the entire balances of other budgeted funds. This definition is idiosyncratic, having the potential to be misleading and confusing. The Commonwealth should adopt a more straightforward definition of fiscal balance. In Chapter 236, Section 79 of the Acts of 2000, the Commonwealth made a positive first step, allowing the Comptroller to eliminate any deficits within the Local Aid and Highway Funds with surpluses from the General Fund.

Under current general laws an amount equal to 0.5% of tax revenues is retained in the funds contributing to the calculation. Any amount in excess of this is available for transfer from the General and Local Aid funds to the Capital Projects Fund in lieu of bonds and the balance is transferred to the Stabilization Fund. In FY00, a special statute directed that up to \$500 million of surplus be set aside to defease debt. After this set aside, \$191.5 million was available for distribution under the formula. Of this amount, \$76.5 million was transferred for capital projects with the remaining balance transferred to the Stabilization Fund.

While this is a sound set aside of surpluses in these three funds, it is important to note that 60 other budgeted funds with combined undesignated fund balances of over \$300 million were not included in the calculation of the transfer. State finance law should be amended to rationalize the contributions to the Stabilization Fund to include the entire population of budgeted funds.

Further complicating this issue is the existence of a large number of “minor” budgeted funds. Over the past several years, dozens of new “minor” funds have been created. These funds split off revenues and expenditures previously accounted for as part of a major fund, such as the General Fund. A number of these funds have structural imbalances leading to chronic deficits. The trend to fragment the budget into such special interest funds should be addressed with a plan to either

consolidate to a more reasonable number of funds or eliminate funds that are structurally in deficit.

A final cautionary note pertains to the disposition of the accumulated surplus. Maintaining a prudent portion of the surplus in the strategic reserve, the Stabilization Fund, is paramount. It is evident, that after a record period of economic growth nationwide, it is inevitable that a slowdown will occur. The Commonwealth must be prepared for this in the face of increasing demands on government. The Legislature and the Governor now face the challenge to frame fiscal policy for the remainder of this surplus. There are numerous choices, each of which has long-term implications on how the Commonwealth maintains its positive financial position. Whatever choices are made, it is important to maintain the long-term structural balance. Accumulated balances should not be committed to purposes with ongoing spending requirements.

Non-Budgeted Funds

The Non-Budgeted Funds represent operations in which the government has imposed its sovereign authority, but has excluded these operations from the annual budget process. During FY00, the Commonwealth maintained 29 of these funds. The largest funds include the Lottery, Federal Grants, Debt Defeasance, Health Care Security Trust (the recipient of tobacco settlement funds), Grant Anticipation, Sewer Rate Relief, the Medical Security Trust and the Uncompensated Care Funds. These funds are commonly referred to as special or dedicated revenue funds whose revenues are matched to related expenditures.

The table, Non-Budgeted Funds – Operations, includes a summary of the FY00 non-budgeted funds. Financial statements for each of the individual funds are included in the financial section of this report. Several of these funds are worth mentioning. At June 30, 2000, the Federal Grants Fund had a positive fund balance, but there is a deficiency in cash within the fund. This situation results in the Commonwealth drawing funds from the federal government a few days after applicable cash disbursements to assure an “interest neutral” timing of the federal – state cash exchange. These requirements were established by the Cash Management Improvement Act of 1990. Within the Lottery Funds, gross revenues continued to increase this fiscal year. Net income also increased, resulting in an increase of distributions to cities and towns of \$28.2 million. The fund balance remaining in the Lottery Funds reflects an additional \$1.0 million available for distribution to cities and towns in FY01.

Ending fund balance.....	\$ 903,017	\$ 1,089,430

The newest non-budgeted fund, the Health Care Security Trust Fund, receives all revenues from the Master Settlement Agreement (MSA) between the states and the tobacco industry to recover health care costs for tobacco related illnesses. The MSA estimates the Commonwealth revenues for the first 25 years of the settlement at \$7.6 billion. This estimate is prior to potentially major future adjustments for inflation and changes in the volume of domestic cigarette sales. In FY00, the Commonwealth received \$326 million or 92% of the estimated amounts shown in the settlement agreement. Of the \$326 million, \$83.6 million was transferred to the Tobacco Settlement Fund, a budgeted fund, with nearly half of that amount expended on various health initiatives in the Commonwealth. The Trust fund also received nearly \$4.7 million in investment earnings during the year.

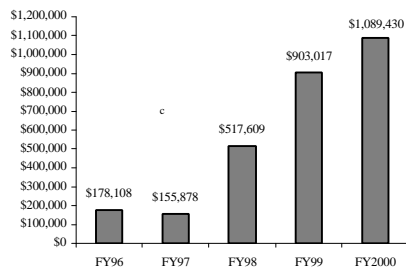

Beginning in FY01, a board of private sector investment experts, appointed by the Governor, the Attorney General and the Treasurer-Receiver-General, will manage the investment of funds in the trust. This board has broad discretion on investment choices to increase the assets in the fund. Annually 30% of payments into the fund and investment earnings thereon will be transferred from the trust to the budgeted funds for appropriation by the Legislature.

Federal Grant Anticipation Notes, (GANS) activity related to the Central Artery / Tunnel project continued this year. During FY98, the Legislature authorized the issuance of up to \$1.5 billion in GANS to finance the current cash needs of the Project. As of June 30, 2000, \$900 million of the GANS have been issued. These GANS mature between 7 to 17 years from the date of issuance and are redeemed by pledged future federal reimbursements. The GANS are not considered general obligation debt of the Commonwealth. Activity related to issuance of

GANS and the accumulation of pledged funds and the payment of debt service is accounted for in the Grant Anticipation Note Trust Fund. The \$158.5 million deficit balance in the fund represents \$50.0 million held for payment of interest on the GANS offset by a \$208.5 million cash deficiency due to expenditures incurred before the issuance of additional GANS. The final \$600 million portion of the GANS are due to be issued in FY01. Part of the proceeds will be used to immediately “cure” any cash deficiency in the fund.

The universal health care funds established in 1988, including the Uncompensated Care, Labor Shortage and Medical Security Trust Funds, have increased their annual revenue to over \$1.1 billion. They also have a combined fund balance of nearly \$266.5 million.

***Non-Budgeted Funds –
Fund Balance
(Amounts in Thousands)***

The graph Non-Budgeted Funds Balance shows the combined fund balance in the Non-Budgeted funds for the past five years. In each year, the entire balance is designated for the specific purpose of the fund. The overall growth in fund balance in these funds this fiscal year is due largely to deposits into the Debt Defeasance and Health Care Security Trust Funds. The GANS fund had a net deficit for the year due to timing. As indicated in previous years, more consolidation and elimination is needed for these funds. For example, the Government Land Bank Fund has a chronic structural fund deficit. The FY00 deficit balance of \$35.0 million represents an unbudgeted drain on the General Fund’s overall cash flow. While steps have been taken to stop the growth in this deficit, the fund should be abolished and the deficit transferred into the General Fund. A periodic reexamination of all non-budgeted funds represents sound financial practice.

Capital Projects Funds

The purpose of these funds is to construct or acquire capital assets for governmental use. The Governor may propose capital outlay budgets, which, upon enactment by a two-thirds vote of the Legislature and approval by the Governor, become capital outlay acts. Numerous acts may be combined for reporting in an individual Capital Projects Fund, but each act is accounted for separately within the Capital Project Fund. These accounts record authorizations for expenditures in itemized capital appropriation accounts and equivalent authorizations to issue bonds or notes in anticipation of federal reimbursements.

The structure of these funds is that each capital outlay authorization is in balance, creating authorization for inflows, which may be from sales of bonds, federal reimbursements or other revenues and authorization for expenditures. Imbalances due to timing differences develop when the expenditure precedes the inflow of funds from the sale of bonds or federal reimbursements. Because of federal tax arbitrage rules, it is more difficult to sell bonds in anticipation of expenditures. The sale of bonds in advance is not commonplace in the Commonwealth. However, two sales this year provided funds that were received in anticipation of expenditures. These funds were primarily used to pay off the aforementioned notes of the MBTA. Bonding in arrears contributes to the timing imbalance. As a result, these funds report not only temporary fund deficits, but cash deficits as well.

FY04	0.658
FY05	0.240

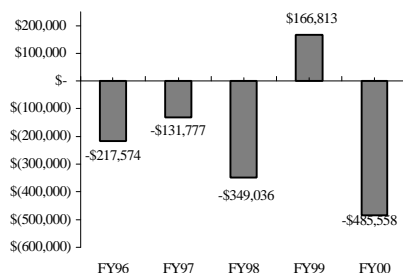

Total Estimated Costs of Construction: \$ 14.075

A significant portion of the Capital Projects activity relates to the Central Artery / Tunnel Project. The Central Artery / Tunnel Project has been the target of an enormous amount of public scrutiny. As indicated in our footnotes, the financial disclosure portion of the Project is under review with various federal agencies. The Commonwealth has aggressively responded to these concerns regarding the integrity of the cost estimates. Under the leadership of former Secretary for Administration and Finance Andrew Natsios and the current Secretary Stephen Crosby, an independent evaluation of the entire estimate for the project was undertaken. The results were fully disclosed and a finance plan for the cost increases was enacted. The Commonwealth has also put in place a new management team for the Project that is committed to full, timely disclosure about schedules and costs. The bulk of the spending remaining on the Project is currently estimated to occur during FY01 and FY02, with final completion now targeted in FY05.

Pursuant to statute and agreements with the Massachusetts Turnpike Authority, (the MTA) and the Massachusetts Port Authority (MassPort), the entities have committed to significant ongoing contributions to the Commonwealth as part of the financing for this project. The tables on page 11 shows the payments received for the past five fiscal years and future anticipated payments. These funds are in addition to funds from the Commonwealth and federal funds for the project.

Finally, the Capital Projects Funds will continue to show a deficit with respect to the Highway Capital Projects Fund for the foreseeable future. That fund's deficit will be amortized through FY20 to pay for the MBTA forward funding.

Capital Projects Funds –
Fund Balance (Deficit)
(Amounts in Thousands)

The graph Capital Projects Funds – Fund Balance (Deficit) shows the combined fund balance in Capital Projects Funds for the past five years. The Capital Projects Funds – Operations table includes the FY00 Capital Projects Funds, summarized and compared to FY99. Financial statements for each of the individual funds are included in the financial section of this report.

Ending fund balance (deficit).....	\$ 166,813	\$ (485,558)

The Commonwealth has a practice of pooling cash from all governmental funds, so the short-term cash deficits in the Capital Projects Funds create a drain on the Commonwealth's overall cash flow. The five-year graph on page 9 shows the effect of elapsed time between capital expenditures and the sale of related debt. The Commonwealth could have issued additional authorized bonds in the amount of \$97.1 million. Had such action been taken, individual fund deficits would have been reduced and cash balances would have increased by that amount.

The Administration has implemented a coordinated fiscal strategy for the management of Capital Projects Funds. This strategy includes a five-year capital budget linked to debt management and cash management. The focus of this strategy is to manage capital spending and outstanding debt to levels the Administration considers appropriate for the Commonwealth. An important part of the strategy is to control capital spending within an annual administrative "cap." As additional capital outlays have been enacted and significant projects such as the Central Artery / Tunnel Project have been authorized, it becomes more challenging to restrain spending to such limits. Strategies to manage this situation, such as alternative financing for capital projects, are needed. The MTA and Massport's participation in the Central Artery / Tunnel Project and the judicious use of operating surpluses should continue.

***Estimated and Actual Payments
From the Authorities
(Amounts in Thousands)***

<u>Fiscal Year</u>	<u>MTA</u>	<u>MassPort</u>
<u>Actual</u>		
1996	\$ 100,000	\$ -
1997	-	-
1998	100,000	12,100
1999	1,051,000	31,000
2000	100,000	52,438
Total	<u>\$ 1,351,000</u>	<u>\$ 95,538</u>
<u>Estimated</u>		
2001	204,000	65,000
2002	-	-
2003	-	105,000
2004	-	50,000
2005	-	50,000
Total	<u>\$ 204,000</u>	<u>\$ 270,000</u>
Total *	<u><u>\$ 1,555,000</u></u>	<u><u>\$ 365,538</u></u>

*The MTA estimates it will contribute an additional \$238 million, including estimated proceeds from sales of assets and garage and surface restoration work connected to the project.

The reductions in debt service from budgeted fund balance transfers for defeasance will be used, in part, to fund an initiative from FY01 through FY05 to rehabilitate the Commonwealth's road and bridge infrastructure. According to Massachusetts Highway Department statistics, during the last seven years, road and bridge construction projects statewide totaled over \$4.2 billion in spending, exclusive of the Central Artery / Tunnel Project. Road and bridge construction statewide has averaged \$609.5 million in spending per year from FY94 to FY00 compared to an average of \$395 million in spending per year from FY89 to FY93. The financing plan increases this average, exclusive of the Central Artery / Tunnel Project for the next five years.

The Commonwealth also completed during August 2000, the financing of lease revenue bonds in connection with the Route 3 North Project, a long – neglected, narrow and congested highway from the New Hampshire border to Route 128 / 95 in Burlington. This financing is the first of its kind in the Commonwealth. A nonprofit corporation has been created to accept lease payments from the Commonwealth and award a singular contract to a development team to design, build, and potentially maintain the highway. When the project is completed in late FY04, estimated travel times are expected to be reduced in a 12-mile stretch of the road from 40 minutes to 15 minutes.

A similar type of financing was used to fund the infrastructure improvements committed to by the Commonwealth for the new stadium housing the New England Patriots football team in Foxborough. A separate industrial development board was set up in the Town of Foxborough to bond for these improvements, with contract assistance payments from the Commonwealth as a source of payment on the bonds. The board will pay the construction contractor \$70 million for the improvement commitment from the Commonwealth out of the proceeds of these bonds.

Fiduciary Funds (Excluding Agency Funds)

The Fiduciary Funds record the Commonwealth's responsibility for assets it controls on behalf of other parties. Examples of such funds are the Unemployment Compensation and Pension Trust Funds. The table on the following page, which excludes assets held on a purely custodial capacity in so-called Agency Funds, summarizes the FY00 activity of the Fiduciary Funds. Over 92% of this Fiduciary Fund activity is related to the Commonwealth's Pension Fund detailed in fund statements found in this report.

On September 7, 2000, the Commonwealth updated its pension valuation. The valuation was based on data as of January 1, 2000. Details of this valuation are outlined in note 11.

Non-Appropriated Funds of Higher Education

The SBFR includes the financial operations of the non-appropriated funds of the 25 Institutions of Higher Education in the statistical section of this report. Over the past few years, significant efforts have been taken by our office and the institutions to improve the accuracy and timeliness of this Higher Education segment of the financial report. Each Institution of Higher Education is authorized and directed in its enabling statute to collect, retain and expend certain fees, rents, sales, donations, federal financial participation and other types of revenue through campus based systems. These financial resources are integral parts of the total financial activity of each campus. They also represent resources in addition to amounts made available from Commonwealth appropriations.

***Non-Appropriated Funds of Higher Education – Fund Balance
(Amounts in Thousands)***

The Non-Appropriated Funds for Higher Education – Operations table includes the FY00 funds, summarized and compared to FY99. Financial statements for each of the individual funds are included in the statistical section of this report. The graph Non-Appropriated Funds for Higher Education – Fund Balance shows the combined fund balance for the past five years. The combined balance represents \$554.6 million for the University of Massachusetts, \$69.0 million for the State College system and \$63.9 million for the Community Colleges. These balances are designated for specific purposes, such as restrictions on endowments or other specialized purposes specified by the funding contributions.

Conclusions And Recommendations

The Commonwealth has many accomplishments in FY00 of which it can be proud. I would like to highlight three here.

February of this year was the culmination of a multi-year effort to rethink the Commonwealth's human resource and payroll practices and replace multiple legacy systems with one statewide Human Resource Compensation Management System (HRCMS). In a Commonwealth-wide effort, the personnel and payroll practices of the Commonwealth were dissected and reconstructed for the 21st century. Departments across state government were led by an Executive Committee, chaired by the Personnel Administrator, James Hartnett. The committee had representatives from the Judiciary, Board of Higher Education, Group Insurance Commission, Information Technology Division, Fiscal Affairs Division and the Office of the Comptroller. Examples of the business process changes include the elimination of paper. Prior to HRCMS, 68% of employees received their pay through direct deposit. Today, over 93% do, reducing banking costs across the Commonwealth. All payroll deductions have also moved to electronic processes. Checks and paper reports have been replaced with electronic payments and data files for all payroll deductions, such as purchases of transit passes, insurance, annuities and payments among the Commonwealth departments. This Project eliminated the control risks and inefficiencies associated with the payment of \$250 million annually. A dedicated team of state employees and contractors worked countless nights and weekends making this, the first major financial system replacement since 1986, an outstanding success. With the implementation of HRCMS, systems are more flexible and efficient. Information has become readily accessible to decision makers in the Commonwealth.

The long-feared Y2K crisis never arrived in the Commonwealth. This was not because the risk did not exist. The dedicated effort of thousands of employees across the Commonwealth identified systems and software that were non-compliant and implemented solutions to insure uninterrupted service as we entered the new millennium. Under the leadership of the Chief Information Officer, David Lewis, the Commonwealth in many instances did more than solve the problem. We used Y2K as an opportunity to review business practices and the technology supporting those business practices. As a result, instead of carrying 1990's technology forward into the next century, new systems taking advantage of new technologies have been put in place.

In 1998, the Office of the Comptroller, in conjunction with the Information Technology Division and the Operational Services Division, embarked on a pilot initiative known as the electronic mall or “eMALL.” This past summer after conclusion and evaluation of the pilot, the first “production state” e-Procurement system was launched. eMALL is part of the online government effort by the Commonwealth. The eMALL is an extranet application where Commonwealth agencies can prepare their orders for commodities, interact with the Commonwealth’s back-end financial systems, place the approved orders with their suppliers, mark goods as received and create automated payments through the accounting system, all done over the internet. The eMALL will expand to other Commonwealth entities such as cities and towns, public authorities and also to other states in order to maximize purchasing power and realize economies of scale. The e-Government effort will expand the existing scope of state on line services to create a fully integrated enterprise portal for the Commonwealth.

Building upon the observations in this letter, a detailed review of these financial statements suggests the need for action to further improve and strengthen state finance law and fiscal practice.

The Commonwealth must constantly monitor and update its systems and controls. Upon taking office 18 months ago, I began a multi-year effort to expand awareness of and the quality of internal controls throughout the Commonwealth. We have asked each department, at its highest levels, to assess its risks and target controls to manage those risks efficiently and effectively. Toward this end the Office of the Comptroller has continued a multi-pronged effort to improve controls throughout the Commonwealth. This effort must continue.

The Commonwealth must ensure that its bills are paid on time. A solid reputation of timely bill payments benefits both our business partners and the taxpayers. During FY00, this office began a campaign with the Chief Fiscal Officers in the 156 state departments to improve the percentage of bills paid within 30 days. The timing and focus on bill paying improved the Commonwealth’s bill payment track record this year to 82% of all bills paid within 30 days. This effort will continue until we have reached and maintained a 95% level.

The Commonwealth should adopt a more straightforward definition of fiscal balance including all of the budgeted funds. The idiosyncratic definition of fiscal balance that includes a portion of fund balance within three of the 63 budgeted funds should be expanded to include all 63 funds.

The Commonwealth should reduce the number of funds and eliminate funds that have chronic deficits. The Commonwealth currently maintains over 122 individual funds to record its financial activity. This excessive number of funds fragments the Commonwealth’s financial picture. Many of these funds have structural imbalances leading to chronic deficits. Two small steps were taken in FY00. Legislation was enacted authorizing the Comptroller to transfer among the 3 major budgeted funds, eliminating the most egregious

deficits. In addition my office reviewed funds established administratively and eliminated six Capital Projects Funds where the level of activity has become immaterial enough to be consolidated into other funds. The effort to reduce the number of funds should continue. The table, Funds with Significant Deficits, identifies funds with significant deficits that remained unfunded or continued to grow during FY00 or where no plan exists to bring them into balance. The structure of these funds should be changed to balance revenues with expenses or the funds should be eliminated and their activity consolidated into the General Fund.

The management of the spending to the administratively capped debt limit should continue. The Commonwealth has committed to an extensive capital projects agenda and great discipline will be needed to assure spending on these projects is matched with financing from bonds, federal reimbursement, transfer of budgetary surplus and financial participation from component units. Assuring proper balance between outflows and inflows, and limiting the segment funded by bonds to the administratively imposed limit, will be a major challenge.

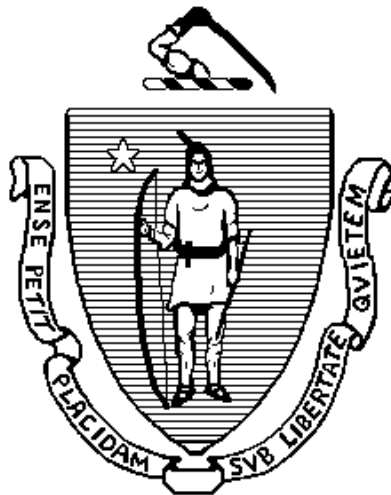

The Commonwealth should continue to emphasize optimization of both tax and non-tax revenues. This statewide campaign has generated nearly \$202 million in revenues since FY96. The revenue optimization strategy should continue.

The Commonwealth must continue its investment in information technology as a means of delivering services as expeditiously and transparently as possible. This fall, Governor Cellucci launched a statewide initiative, under the direction of Secretary Crosby, to reconceptualize the way government interacts with its customers. As part of the initiative, we will serve our citizens quickly, fairly and as accurately as possible on their schedules. We will eliminate “stand-alone” systems to streamline information. We will make it as easy as possible for citizens to interface with us. In our increasingly busy and stressful world, it is critical that government continue to “re-invent” itself.

I again would like to express my thanks to the many dedicated people within the Office of the State Comptroller. We have had another successful year within the office. Our office has undertaken many tasks this year: a successful Y2K transition, a successful implementation of the HRCMS system, and a dedicated effort helping to implement forward funding of the MBTA. As we go forth into FY01, we are embarking on the redesign of our separate Comprehensive Annual Financial Report due to Government Accounting Standards Board Statements 34 and 35. We are also investigating a potential upgrade to MMARS. I am proud to have all the 115 employees of the Comptroller’s Office on my team to help tackle these and other difficult issues of the future.

Respectfully submitted,

Martin J. Benison
Comptroller

INDEPENDENT AUDITORS' REPORT

Mr. Martin Benison, Comptroller
The Commonwealth of Massachusetts

We have audited the accompanying combined financial statements - statutory basis of the Commonwealth of Massachusetts as of June 30, 2000, and for the year then ended, listed in the foregoing table of contents. These combined financial statements - statutory basis are the responsibility of the management of the Commonwealth of Massachusetts. Our responsibility is to express an opinion on these combined financial statements - statutory basis based on our audit. We did not audit the financial statements of the Pension Reserves Investment Trust, which is the investment vehicle of the Commonwealth of Massachusetts' Pension Trust Funds, the financial statements of which represent 90.1 percent and 69.1 percent, respectively, of the assets and revenues of the Fiduciary Fund Type. Those financial statements were audited by another auditor whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Pension Reserve Investment Trust, is based solely on the report of the other auditor.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements - statutory basis are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the combined financial statements - statutory basis. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall combined financial statement - statutory basis presentation. We believe that our audit and the report of the other auditor provide a reasonable basis for our opinion.

As described in Note 2 to the combined financial statements - statutory basis, the Commonwealth of Massachusetts prepares its combined financial statements - statutory basis on a prescribed basis of accounting that demonstrates compliance with General Laws, budgetary principles, and funds of the Commonwealth of Massachusetts, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, based on our audit and the report of another auditor, such combined financial statements statutory basis referred to above present fairly, in all material respects, the financial position of the Commonwealth of Massachusetts, as of June 30, 2000, and the results of its operations for the year then ended, on the basis of accounting described in Note 2.

Our audit was conducted for the purpose of forming an opinion on the combined financial statements— statutory basis taken as a whole. The combining and individual fund statements - statutory basis and supplemental information listed in the foregoing table of contents, are presented for the purpose of additional analysis and are not a required part of the combined financial statements - statutory basis of the Commonwealth of Massachusetts. These financial statements and schedules are also the responsibility of the management of the Commonwealth of Massachusetts. Such additional information has been subjected to the auditing procedures applied in our audit of the combined financial statements - statutory basis and, based on our audit and the report of the other auditor, in our opinion, is fairly stated in all material respects when considered in relation to the combined financial statements - statutory basis taken as a whole.

We did not audit the data included in the introductory and statistical sections of this report, and accordingly, we express no opinion on such data.

In accordance with *Government Auditing Standards*, we have also issued our report, dated October 24, 2000, on our consideration of the Commonwealth of Massachusetts' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

This report is intended solely for the use of elected and appointed officials of the Commonwealth of Massachusetts and is not intended to be and should not be used by anyone other than these specified parties.

October 24, 2000

Net assets available for pension benefits at end of year (fund balances reserved for employees' pension benefits).....	<u>\$ 30,541,904</u>	<u>\$ 26,266,725</u>

See notes to combined financial statements - statutory basis.

1. FINANCIAL STATEMENT PRESENTATION

Introduction – The accompanying combined financial statements – statutory basis of the Commonwealth of Massachusetts (the Commonwealth) are presented in accordance with the requirements of Section 12 of Chapter 7A as amended by Section 4 of Chapter 88 of the Acts of 1997 of the Massachusetts General Laws. The Office of the Comptroller also publishes the Commonwealth's Comprehensive Annual Financial Report (CAFR) which is prepared on the basis of accounting principles generally accepted in the United States of America (GAAP) for governments. GAAP is prescribed by the Governmental Accounting Standards Board, the authoritative standard-setting body for establishing governmental accounting and financial reporting principles.

The combined financial statements – statutory basis include all budgeted and non-budgeted funds and account groups of the Commonwealth, as recorded by the Office of the Comptroller in compliance with Massachusetts General Laws and in accordance with the Commonwealth's budgetary principles.

The combined financial statements – statutory basis are not intended to include independent authorities, non-appropriated funds of higher education or other organizations included in the Commonwealth's reporting entity as it would be defined under GAAP.

Statutory Basis Accounting – The Commonwealth reports its statutory basis financial position and results of operations in funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues and expenditures/expenses. Transactions between funds within a fund type, if any, have not been eliminated.

Account groups are accounting entities used to provide accountability for the Commonwealth's general fixed assets and long-term obligations. They are not considered funds because they do not report expendable available financial resources and related liabilities.

The Fund types and account groups are organized as follows:

Governmental Fund Types - accounts for the general governmental activities of the Commonwealth.

Budgeted Funds – are the primary operating funds of the Commonwealth. They account for all budgeted governmental transactions. Major budgeted funds include the General, Highway and Local Aid funds which are identified by the Comptroller as the operating funds of the Commonwealth.

Non-Budgeted Special Revenue Funds – are established by law to account for specific revenue sources that have been segregated from the budgeted funds to support specific governmental activities such as federal grants, funds related to the tobacco settlement and the operations of the state lottery.

Capital Projects Funds – account for financial resources used to acquire or construct major capital assets and to finance local capital projects as well as a one time fiscal year 2000 transfer to forward fund the Massachusetts Bay Transit Authority (MBTA). These resources are derived from proceeds of general obligation bonds, which are generally received after the expenditure has been incurred, operating transfers authorized by the Legislature and from federal reimbursements. Deficit balances in Capital Projects Funds represent amounts to be financed.

Fiduciary Fund Types – account for assets held by the Commonwealth in a trustee capacity (Trust Funds), or as an agent (Agency Funds) for individuals, private organizations, other governmental units, and/or other funds.

Expendable Trust Funds – account for trusts whose principal and investment income may be expended for their designated purpose.

Nonexpendable Trust Funds – account for trusts whose principal cannot be spent.

Pension Trust Funds – account for the net assets available for plan benefits held in trust for the State Employees' and Teachers' Retirement Systems.

Agency Funds – account for assets the Commonwealth holds on behalf of others. Agency Funds are custodial in nature and do not involve measurement of operations.

Account Groups – establish control and accountability over the Commonwealth's general fixed assets and long-term obligations.

General Fixed Assets Account Group – accounts for the general fixed assets of the Commonwealth and capital leases.

General Long-term Obligations Account Group – accounts for long-term bonds and notes issued by the Commonwealth and capital leases.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statutory Basis of Accounting – The Statutory Basis Financial Report is prepared from the Commonwealth's books and records and other official reports which are maintained on the basis of accounting used in the preparation of the Commonwealth's legally adopted annual budget (statutory basis). The statutory basis emphasizes accountability and budgetary control of appropriations. The Statutory Basis Financial Report is not intended to present the Commonwealth's financial condition and results of operations in conformity with GAAP. Under GAAP, the books are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting.

Revenues are generally recognized when cash deposits are received by the Treasury. However, revenues receivable for federal grants and reimbursements are recognized when related expenditures are incurred. Amounts due from political subdivisions of the Commonwealth are recognized when considered measurable and available. Deeds excise taxes are recognized at the time of collection by the counties and the Commonwealth. Under GAAP, revenues are recognized when they become both measurable and available.

Expenditures are generally recorded when the related cash disbursement occurs. At year-end, payroll is accrued and payables are recognized, to the extent of approved encumbrances, for goods or services received by June 30. Costs incurred under the federally-sponsored Medicaid program, amounts required to settle claims and judgments against the Commonwealth, and certain other liabilities are not recognized until they are encumbered or otherwise processed for payment. Under GAAP, expenditures are recorded in the period in which the related fund liability is incurred.

The Pension Trust Funds are reported using a flow of economic resources measurement focus and the accrual basis of accounting on both the Statutory and GAAP basis. Under this method, additions are recorded when

earned and deductions are recorded at the time liabilities are incurred. This measurement focus emphasizes the determination of net change in assets available for pension benefits.

The accounting policies followed in preparing the accompanying combined financial statements – statutory basis are described in the remainder of this section.

Cash, Short-term Investments and Investments –

The Commonwealth follows the practice of pooling the cash and cash equivalents of its Governmental and Fiduciary Funds. Cash equivalents consist of short-term investments with an original maturity of three months or less and are stated at cost. Interest earned on pooled cash is allocated to the General Fund, Expendable Trust Funds and, when so directed by law, to certain Special Revenue and Capital Projects Funds.

The Commonwealth enters into interest rate swap agreements to modify interest rates on outstanding debt. Other than the net interest expenditures resulting from these agreements no amounts are recorded in the financial statements.

The Pension Trust Funds, with investments of approximately \$31,280,296,000 at fair value, are permitted to make investments in equity securities, fixed income securities, real estate and other alternative investments. For investments traded in an active market, the fair value of the investment will be its market price. The Pension Trust Funds include investments in real estate, venture capital funds, real estate funds, limited partnerships, futures pools, international hedge pools, commodities pools, balanced pools, leveraged buyouts, private placements and other alternative investments. The structure, risk profile, return potential and marketability differ from traditional equity and fixed income investments. Concentration of credit risk exists if a number of companies in which the fund has invested are engaged in similar activities and have similar economic characteristics that could cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. To mitigate the exposure to concentrations of risk, the Pension Trust Funds invest in a variety of industries located in diverse geographic areas. As of June 30, 2000, the estimated fair values, determined by management with input from the investment managers, of these real estate and alternative investments were \$3,417,147,000 of the Pension Trust Funds, representing 9.1% of the total assets of the Fiduciary Fund Type.

Securities Lending Program - The Pension Trust Funds participate in securities lending programs. Under these programs, the Trusts receive a fee for allowing brokerage firms to borrow certain securities for a predetermined period of time, securing such loans with cash or collateral typically equaling 102% to 105% of the fair value of the security borrowed. At June 30, 2000, the market value of the securities on loan from the Pension Reserve Investment Trust (PRIT) was approximately \$1,260,000,000. The value of the collateral held by PRIT amounted to \$1,365,000,000 at June 30, 2000. The PRIT securities on loan were collateralized at all times by U.S. Treasury securities of at least 100% of the value.

Receivables - Receivables are stated net of estimated allowances for uncollectible accounts. Reimbursements due to the Commonwealth for its expenditures on federally funded reimbursement and grant programs are reported as "Due from federal government."

Due from Cities and Towns - Represents reimbursement due to the Commonwealth for its expenditures on certain programs for the benefit of cities and towns.

Advances to Related Entity - As part of the General Appropriation Act of 2000 (Chapter 127 of the Acts of 1999,) the funding mechanism for the net cost of service and other costs of the Massachusetts Bay Transportation Authority (MBTA) was changed. The change is effective July 1, 2000. Under the previous funding method, used since the MBTA's inception in the 1960's, the MBTA's costs were funded by the Commonwealth 18 months in arrears. Under the new funding method (Forward Funding), the MBTA's costs will be funded on a current basis. This method apportions a "dedicated sales tax" amounting to 1% of applicable sales in the Commonwealth, directly to the MBTA. The MBTA will also continue to receive amounts assessed on the 175 cities and towns within the service area (assessments.) The assessments (\$144,579,000 in fiscal year 2000) are expected to total approximately \$144,000,000 in fiscal year 2001 and decrease each year to approximately \$136,000,000 in fiscal year 2006. After 2006, assessments will be adjusted annually by a maximum of 2.5% per year. The dedicated sales tax will be equal to the greater of the amount raised by the sales tax or \$645,000,000, (the base revenue,) subject to an adjustment for inflation, capped at 3% annually. All revenues are deposited into the Massachusetts Bay Transportation Authority State and Local Contribution Fund, a non-budgeted special revenue fund. Accordingly, under forward funding, the MBTA will no

longer receive advances from the Commonwealth for its net cost of service or other contract assistance.

Costs recognized by the Commonwealth in fiscal year 2000 related to forward funding are as follows:

Sources of Funds

G.O. Bonds Issued.....	\$325,000,000
Operating Transfers.....	10,540,000
Amount to be Amortized.....	612,750,000
Total Sources of Funds to the MBTA.....	<u>948,290,000</u>

Uses of Funds

Net Cost of Service Paid For:

Calendar Year 1999 and Before.....	505,750,000
1/1-6/30/00 Including Operating Interest.....	342,540,000
Working Capital.....	<u>100,000,000</u>
Total Cost of Forward Funding.....	<u>\$948,290,000</u>

The amount to be amortized above represents 18 months of net cost of service of the MBTA. The Commonwealth appropriated \$27,500,000 for FY01 to begin the amortization of the \$612,750,000. For FY02 through FY20, the Commonwealth has the option of either appropriating \$30,803,000 annually, or bonding the amounts, to a maximum remaining authorization of \$475,000,000.

Inventories - The costs of materials and supplies are recorded as expenditures in Governmental Funds when purchased. Such inventories are not material in total to the financial statements and therefore are not recorded.

General Fixed Assets - General fixed asset acquisitions are recorded as expenditures in the acquiring fund and capitalized in the General Fixed Assets Account Group in the year purchased. General fixed assets are recorded at historical cost, or at estimated historical cost if actual historical cost is not available. Donated fixed assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Improvements are capitalized.

The Commonwealth capitalizes all land except land associated with infrastructure. It capitalizes buildings and equipment, including computer software, with a cost in excess of fifteen thousand dollars at the date of acquisition and with an expected useful life greater than one year. Interest incurred during construction is not material and is not capitalized. Public domain general

fixed assets and infrastructure (roads, bridges, tunnels, dams, water and sewer systems, etc.) are not capitalized. No depreciation is provided on general fixed assets.

Interfund/Intrafund Transactions – During the course of its operations, the Commonwealth records transactions between funds and/or between departments. On the statutory basis, transactions between Governmental and Fiduciary Fund Types are recorded as adjustments to the funds' cash accounts. As a result, a fund may report a deficiency in cash and short-term investments.

Transactions of a buyer/seller nature between departments within a fund are not eliminated.

Transfers in and out net to \$8.6 million due to higher education non-appropriated fund activity, which is not included in the combined statements – statutory basis.

Risk Management – The Commonwealth does not insure for state employees workers' compensation, casualty, theft, tort claims and other losses. Such liabilities are not recognized on the statutory basis until encumbered and/or processed for payment. For employees workers' compensation, the Commonwealth assumes the full risk of claims filed under a program managed by the Human Resources Division. For personal injury or property damages, Chapter 258 of the Massachusetts General Laws (General Laws) limits the risk assumed by the Commonwealth to \$100,000 per occurrence, in most circumstances. The Group Insurance Commission administers contributory health care and other insurance programs for the Commonwealth's employees and retirees.

The Commonwealth has entered into agreements for insurance for Central Artery/Tunnel Project workers' compensation and certain other claims that may arise in the course of the Project. This special arrangement has been approved by the Federal Highway Administration as a cost-effective method to fund current and potential future claims by contractors, workers, and other parties affected by the project. Pursuant to the agreement, the Commonwealth conveys a sum of money to the agent each month. This amount includes both federal and state share. The agent manages and settles all claims. At the conclusion of the program, the balance remaining, if any, will be returned to the Commonwealth and the federal government. The monthly amount conveyed to the agent is accounted for (on the statutory basis of accounting) as an expenditure in the Federal Highway Capital Projects Fund.

Encumbrances – Encumbrance accounting is utilized in the Governmental Fund Types as a significant aspect of budgetary control. The full amounts of purchase orders, contracts and other commitments of appropriated resources are encumbered and recorded as deductions from appropriations prior to actual expenditure, ensuring that such commitments do not exceed appropriations. Encumbrances outstanding at year-end for goods or services received on or before June 30 are reported as statutory basis liabilities and expenditures.

Fringe Benefit Cost Recovery – The Commonwealth appropriates and pays the fringe benefit costs of its employees and retirees through the General Fund and the Intragovernmental Service Fund. These fringe benefits include the costs of employees' health insurance, pensions, unemployment compensation, and other costs necessary to support the state work force. As directed by Chapter 29, Sections 5D and 6B(f) of the Massachusetts General Laws, these costs are assessed to other funds based on their payroll costs, net of credits for direct payments. Since these fringe benefit costs are not appropriated in the budget, the required assessment creates a variance between budget and actual expenditures at year end. The fringe benefit cost recoveries of \$124,303,000 in the budgeted funds result from costs assessments of \$76,320,000 in the governmental fund types and the expendable trust funds. The remainder of \$47,983,000 is assessed to the higher education non-appropriated activity which is not included in the combined financial statements - statutory basis.

School Construction Grants - The Commonwealth, through legislation, is committed to reimburse certain cities, towns and regional school districts for a portion of their debt service costs for school construction and renovation. These costs are recorded as expenditures when paid. The amounts expected to be liquidated with available financial resources are reported as expenditures and fund liabilities under GAAP. The long-term portion of this liability is recorded in the General Long-Term Obligation Account Group on a GAAP basis.

Compensated Absences – Employees are granted vacation and sick leave in varying amounts based on collective bargaining agreements and state laws. Upon retirement, termination or death, certain employees are compensated for unused vacation and sick leave (subject to certain limitations) at their then-current rate of pay. Vacation and sick leave are recorded as expenditures when paid.

Lottery Revenue and Prizes – Ticket revenues and prizes awarded by the Massachusetts Lottery Commission are recognized as drawings are held. For certain prizes payable in installments, the Commonwealth purchases annuities, “principal only” and “interest only” treasury strips in the Commonwealth’s name, which are recorded as annuity contracts and prizes payable in the Agency Funds on a GAAP basis. The Commonwealth retains the risk related to such annuities.

Fund Balances – The Commonwealth reports fund balances as reserved where legally restricted for a specific future use. Otherwise, these balances are considered unreserved.

Fund balance has been reserved as follows:

“Reserved for continuing appropriations” – are unexpended amounts in appropriations which the Legislature has specifically authorized to be carried into the next fiscal year.

“Reserved for Commonwealth stabilization” – are amounts set aside in the Commonwealth Stabilization Fund in accordance with 5C of Chapter 29 of Massachusetts General Laws, as amended by Chapter 88 of the Acts of 1997, Chapter 175 of the Acts of 1998 and Chapter 87 and 236, Section 79 of the Acts of 2000.

“Reserved for tax reduction” - is the amount set aside in the Tax Reduction Fund according to Section 6 of Chapter 29B of the Massachusetts General Laws.

“Reserved for transitional escrow” – are reserves set aside until December 31, 1999 under Section 46 of Chapter 68, Acts of 1999.

“Reserved for debt service” – are amounts held by fiscal agents or the Commonwealth to fund future debt service obligations.

“Reserved for employees’ pension benefits” – are the net assets of the Commonwealth’s public employee retirement systems which cannot be used for any other purpose.

“Reserved for unemployment benefits” – are amounts reserved for payment of unemployment compensation.

“Reserved for capital projects” - are amounts reserved for capital projects.

Unreserved fund balance is segregated into two

components:

“Designated for specific purpose” – are all unreserved fund balances for which the Legislature or Executive Branch has evidenced an intention to restrict for a specific purpose.

“Undesignated” – consists of cumulative surpluses or deficits of the Governmental Fund Types not otherwise designated.

Reclassification – Certain reclassifications have been made to the fiscal year 1999 account balances to conform to the presentation used in fiscal year 2000.

3. BUDGETARY CONTROL

State finance law requires that a balanced budget be approved by the Governor and the Legislature. The Governor presents an annual budget to the Legislature which includes estimates of revenues and other financing sources and recommended expenditures and other financing uses. The Legislature, which has full authority to amend the budget, adopts an expenditure budget by appropriating monies at the individual appropriation account level in an annual appropriations act.

Before signing the appropriations act, the Governor may veto or reduce any specific item, subject to legislative override. Further changes to the budget established in the annual appropriations act may be made via supplemental appropriations acts or other legislative acts. These must also be signed by the Governor and are subject to the line item veto.

In addition, Massachusetts General Laws authorize the Secretary of Administration and Finance, with the approval of the Governor, upon determination that available revenues will be insufficient to meet authorized expenditures, to withhold allotments of appropriated funds which effectively reduce the account’s expenditure budget.

The majority of the Commonwealth’s appropriations are non-continuing accounts which lapse at the end of each fiscal year. Others are continuing accounts for which the Legislature has authorized that an unspent balance from the prior year be carried forward and made available for spending in the current fiscal year. In addition, the Legislature may direct that certain revenues be retained and made available for spending within an appropriation. Fringe benefits and other costs which are mandated by state finance law are not itemized in the appropriation

process and are not separately budgeted.

The original fiscal year 2000 appropriations act was Chapter 127, Acts of 1999. This appropriation act authorized \$19,931,438,000 in direct appropriations. In addition, the act contained \$902,377,000 in authorizations to retain and expend certain non-tax revenues of which \$884,250,000 were estimated to be collected and expended. The Act also included \$112,994,000 in interagency chargebacks. Chapter 127 included estimates of \$14,787,000,000 in tax revenues and approximately \$6,107,752,000 in non-tax revenues. With these revenues (exclusive of chargebacks) projected to total approximately \$20,894,752,000 and with unreserved balances of approximately \$386,893,000 carried forward from the fiscal year 1999, the budget as presented in this original appropriation act was considered to be in balance.

During fiscal year 2000, the Legislature also passed and the Governor signed, with some modification through veto, Chapters 101, 175, 176 and 177 of the Acts of 1999 and Chapters 1, 34, 82 and 111 of the Acts of 2000, which included numerous supplemental budgetary appropriations. These supplements added \$429,292,000 indirect appropriations and \$117,000 in retained revenue authorizations.

Subsequent to June 30, 2000, the Legislature passed and the Governor signed Chapters 150 and 236 of the Acts of 2000, which included \$255,779,000 in additional supplemental appropriations and \$92,950,000 in additional retained revenue authorizations. The cumulative fiscal year 2000 appropriations, retained revenues and interagency chargebacks totals \$21,725,000,000. Appropriations continued from fiscal year 1999 totaled approximately \$212,166,000 and certain interfund transfers directed by statute totaled approximately \$1,343,425,000.

Because revenue budgets are not updated subsequent to the original appropriation act, the comparison of the initial revenue budget to the subsequent, and often modified, expenditure budget can be misleading. Also, these financial statements portray fund accounting with gross inflows and outflows, thus creating a discrepancy to separately published budget documents. In conducting the budget process, the Commonwealth excludes those interfund transactions that by their nature have no impact on the combined fund balance of the budgeted funds.

Generally, expenditures may not exceed the level of spending authorized for an appropriation account.

However, the Commonwealth is statutorily required to pay debt service, regardless of whether such amounts are appropriated. In addition, certain interfund assessments to allocate fringe benefits and other costs which are mandated by state finance law are not itemized in the appropriation process or separately budgeted.

The following table identifies this interfund activity from the budgeted sources and uses to align more clearly forecasts prepared during the budget process to the detailed fund accounting of the Commonwealth's statutory financial statements (amounts in thousands):

	Revenues and Other Financing Sources	Expenditures and Other Financing Uses
Actual as presented in the combined budget and actual statement - statutory basis.....	\$ 26,221,102	\$ 26,048,122
Adjustments to revenues and expenditures		
Municipal transit assessments.....	(15,821)	(15,821)
Transfer to the Intragovernmental Service Fund Revenues.....	(99,663)	(99,663)
Adjustments to other financing sources and uses:		
MBTA subsidy transfer.....	(154,430)	(154,430)
Fringe benefit cost assessments.....	(23,916)	(23,916)
Transfer from the Intragovernmental Service Fund to the General Fund.....	(3,547)	(3,547)
Transfer from the Revenue Maximization Fund to the General Fund.....	(19,464)	(19,464)
RMV License Plates.....	(3,447)	(3,447)
Stabilization transfers.....	(114,871)	(114,871)
Transfer to Transitional Escrow Fund.....	(75,200)	(75,200)
Collective Bargaining Reserve Fund.....	(54,168)	(54,168)
Transfer to close Commonwealth Cost Relief Fund.....	(3,837)	(3,837)
Transfer to Clean Election Fund.....	(10,000)	(10,000)
Transfer for MBTA Debt Service.....	(10,540)	(10,540)
Transfer to Children's and Senior's Health Fund.....	(36,952)	(36,952)
MWRA Debt Service Reimbursement.....	(4,435)	(4,435)
Transfer to Inland Fisheries and Game Fund.....	(94)	(94)
Fund deficit elimination Highway.....	(388,205)	(388,205)
Fund deficit elimination Local Aid.....	(2,591,577)	(2,591,577)
Chapter 34B County Pensions.....	(1,756)	(1,756)
Transfer to Caseload Mitigation Fund.....	(22,091)	(22,091)
Actual as presented on budgetary documents.....	\$ 22,587,088	\$ 22,414,108

Please see the section divider for the budgeted funds to review the list of budgeted funds grouped by categories.

The Office of the Comptroller has the responsibility to ensure that budgetary control is maintained on an individual appropriation account basis. Budgetary control is exercised through the state accounting system, Massachusetts Management Accounting and Reporting System (MMARS). Encumbrances and expenditures are not allowed to exceed the appropriation account's spending authorization.

4. DEPOSITS AND INVESTMENTS

The Commonwealth maintains a cash and short-term investment pool that is available for use by all funds. Each fund type's net equity in this pool is displayed on the combined balance sheet as either "Cash and short-term investments" or "Deficiency in cash and short-term investments." The investments of the Pension Trust Funds are held in a trust.

The Office of the Treasurer and Receiver-General (Treasury) manages the Commonwealth's short-term investment pool. Statutes authorize investment in obligations of the U.S. Treasury, authorized bonds of all states, banker's acceptances, certificates of deposit, commercial paper rated within the three highest classifications established by Standard & Poor's Corporation and Moody's Commercial Paper Record and repurchase agreements that any of these obligations secure. Such investments are carried at cost, which approximates fair value.

The pooled cash and short-term investments at June 30, 2000 are as follows (amounts in thousands):

	Carrying Value
Cash and Certificates of deposit.....	\$ 597,666
Short-term investments:	
Commercial paper.....	588,939
Short-term investment pool.....	3,176,920
Repurchase agreements.....	330,485
Money market investments.....	982,243
Total.....	<u>\$ 5,676,253</u>

Pooled cash and short-term investments include the following:

Cash and short-term investments.....	\$ 6,102,030
Cash with fiscal agent.....	76,033
Deficiency in cash and short-term investments.....	<u>(501,810)</u>
Total.....	<u>\$ 5,676,253</u>

The Pension Trust Funds have invested a significant portion of their portfolios into a trust, which pools assets for investment purposes and allocates returns on these investments in proportion to each fund's share of the pool.

The investments are carried at fair value. At June 30, 2000, they are as follows (amounts in thousands):

	Amount
Investments:	
Equity securities.....	\$ 13,518,608
U.S. government and government agency securities....	4,011,549
Fixed income securities.....	3,405,437
Real estate.....	1,594,548
Alternative investments.....	1,822,599
International investments.....	6,927,555
Total.....	<u>\$ 31,280,296</u>

Financial Instruments with Off-Balance Sheet Risk -

Certain investments of the Commonwealth may involve a degree of risk not accounted for on the respective financial statements. A description of such "off-balance sheet risks" are as follows:

Forward Currency Contracts - The Pension Trust Funds enter into forward currency contracts to hedge the exposure to change in foreign currency exchange rates on foreign portfolio holdings. The market value of the contract will fluctuate with changes in currency exchange rates. Risks may arise upon entering these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

When the contract is closed, the Pension Trust Funds record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Fluctuations in the value of forward currency contracts are recorded as unrealized gains or losses by the Pension Trust Funds.

Future Contracts - The Pension Trust Funds may purchase and sell financial futures contracts to hedge against changes in the values of securities the fund owes or expects to purchase. Upon entering such contracts, they must pledge to the broker an amount of cash or securities equal to a percentage of the contract amount.

The potential risk is that the change in the value of futures contracts primarily corresponds with the value of underlying instruments which may correspond to the change in value of the hedged instruments. In addition, there is a risk that PRIT may not be able to close out its future positions due to a non-liquid secondary market. Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign

currency relative to the U.S. dollar. The Pension Trust Funds may also invest in financial futures contracts for non-hedging purposes.

Payments are made or received by the Pension Trust Funds each day, depending on the daily fluctuations in the value of the underlying security and are recorded as unrealized gains or losses. When the contracts are closed, the Pension Trust Funds recognize a realized gain or loss.

Options - PRIT is also engaged in selling or "writing" options. The Pension Trust Funds, as writers of options, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the security underlying the written option. As of June 30, 2000, there were no material options outstanding.

5. SHORT-TERM FINANCING AND CREDIT AGREEMENTS

Massachusetts General Laws authorize the Treasurer to issue temporary notes in anticipation of revenue or bond financing. When this short-term debt does not meet long-term financing criteria, it is classified among fund liabilities.

General Fund – Through June 30, 2000 the Commonwealth was authorized by Massachusetts General Laws to issue short-term notes to finance working capital advances to the MBTA. There were no such notes outstanding at June 30, 2000.

The balance of revenue anticipation notes (RANs) outstanding fluctuates during the fiscal year, but must be reduced to zero at June 30. During fiscal year 2000, there were no RANs issued or outstanding.

Capital Projects Funds – The Commonwealth may issue bond anticipation notes (BANs) to temporarily finance its capital projects. On December 22, 1999, the Commonwealth issued \$175,000,000 in commercial paper in anticipation of issuance of long-term debt. The proceeds of the issuance were deposited in the Capital Projects Funds. On February 29, 2000, as part of a long-term debt issuance, the Commonwealth retired this commercial paper from the bond proceeds and paid an additional \$1,301,000 in interest costs. No commercial paper or other BANs were outstanding at June 30, 2000.

On September 7, 2000, the Commonwealth sold General Obligation Bond Notes, Series 2000 A, in the aggregate

principal amount of \$400,000,000 with an interest rate of 5%. The notes mature on September 6, 2001. The notes are issued as BANs to finance costs associated with the development of convention centers in Boston and Worcester. The notes may also be used to pay other capital costs of the Commonwealth.

On September 27, 2000, the Commonwealth issued \$220,000,000 in commercial paper in anticipation of the final \$600,000,000 authorization for Grant Anticipation Notes (GANS) to be sold in November, 2000, partially financing the Central Artery / Tunnel Project.

Letter-of-Credit Agreements – During fiscal year 2000, the Commonwealth maintained a letter-of-credit agreement with a bank in order to provide credit and liquidity support for its commercial paper program. The letter of credit was available to secure up to \$200,000,000 of Commonwealth commercial paper plus interest thereon. Advances were available, subject to certain limitations and bearing interest at the bank rate as defined, in anticipation of revenue or bond proceeds and repayable by the following June 30, subject to extension in certain circumstances, at the Commonwealth's option. No such advances were drawn during the fiscal year ended June 30, 2000, or subsequent thereto. The existing letter of credit agreement expires on October 31, 2000. The average costs are approximately .09% on both unutilized and utilized amounts

Line-of-Credit Agreement – During fiscal year 2000, the Commonwealth maintained a line-of-credit agreement to provide liquidity support for commercial paper notes. On September 28, 1999, the Commonwealth entered into line-of-credit agreements with two banks to provide a total of \$400,000,000 in liquidity support for the Commonwealth's commercial paper program. These agreements expire in September of 2001 and 2002, respectively. The costs of these facilities average approximately .08% on unutilized amounts and .095% on utilized amounts.

6. LONG-TERM DEBT

Under the Constitution of the Commonwealth of Massachusetts, the Commonwealth may borrow money (a) for defense, (b) in anticipation of receipts from taxes or other sources, any such loan to be paid out of the revenue of the year in which the loan is made, or (c) by a two-thirds vote of the members of each house of the Legislature present and voting thereon. The Constitution further provides that borrowed money shall not be expended for any other purpose than that for which it

was borrowed or for the reduction or discharge of the principal of the loan. In addition, the Commonwealth may give, loan or pledge its credit by a two-thirds vote of the members of each house of the Legislature present and voting thereon, but such credit may not in any manner be given or loaned to or in aid of any individual, or of any private association, or of any corporation which is privately owned or managed.

The Commonwealth has waived its sovereign immunity and consented to be sued on contractual obligations, including bonds and notes issued by it and all claims with respect thereto. However, the property of the Commonwealth is not subject to attachment or levy to pay a judgment, and the satisfaction of any judgment generally requires legislative appropriation. Enforcement of a claim for the payment of principal or interest on bonds and notes of the Commonwealth may also be subject to the provisions of federal or Commonwealth statutes, if any, enacted to extend the time for payment or impose other constraints upon enforcement.

As of June 30, 2000, the Commonwealth had three types of long-term debt outstanding: general obligation bonds, special obligation bonds and grant anticipation notes.

The general obligation bonds are authorized and issued primarily to provide funds for Commonwealth-owned capital projects and local government improvements. They are backed by the full faith and credit of the Commonwealth and paid from the Governmental Funds, in which debt service principal and interest payments are appropriated. Massachusetts General Laws provide for the allocation of bond proceeds to these authorizations in arrears, as expenditures are made, unless the proceeds are allocated at the time of issuance.

Some Commonwealth general obligation debt is issued as College Opportunity Bonds (COBs) as authorized by the Massachusetts General Laws. Such bonds were initially issued in fiscal year 1996, and continued through fiscal year 2000 in amounts totaling \$95,439,000, with maturity ranging from 2000 through 2019. COBs have an accreting interest component payable at maturity. The annual accretion rate of each COB's maturity is a variable rate equal to the change in annual Consumer Price Index (CPI) plus 2.0%. Assuming the CPI averages 3.5% during the life of the outstanding COBs the payments due at maturities of the COBs will total \$165,878,000. In addition, COBs pay current interest in the amount of 0.5% per year of the initial amount still outstanding. These bonds are backed by the full faith and credit of the Commonwealth.

On August 1, 2000 the Commonwealth issued approximately \$6,626,000 in additional College Opportunity Bonds, with maturities of 2005 to 2020. The terms and conditions of these bonds are the same as those issued in fiscal years 1996 through 2000.

Chapter 38 of the Acts of 1997 and Chapter 300 of the Acts of 1998 abolished several Massachusetts counties on various effective dates. As part of these provisions, the Commonwealth assumed the outstanding debt of Middlesex County on July 1, 1997, of Hampden and Worcester Counties on July 1, 1998 and that of Essex County on July 1, 1999. The county debt assumed has become general obligation debt of the Commonwealth. As of June 30, 2000, \$2,105,000 of these obligations remain outstanding.

The Commonwealth also issues special obligation revenue bonds as authorized by Massachusetts General Laws. Such bonds may be secured by all or a portion of revenues credited to the Highway Fund and are not general obligations of the Commonwealth. At June 30, 2000, the Commonwealth had outstanding \$564,485,000 of such special obligation bonds, secured by a pledge of 6.86 cents of the 21.00 cent motor fuel excise tax imposed on gasoline. No new special obligation bonds were issued during the fiscal year.

The Commonwealth also issues Federal Highway GANS to finance current cash flow for the Central Artery/Tunnel Project in anticipation of future federal reimbursements. Section 9 through 10D of Chapter 11 of the Acts of 1997, as amended by Chapter 121 of the Acts of 1998, authorizes the Commonwealth to sell up to \$1,500,000,000 in GANS. All Federal Highway Construction reimbursements and reimbursements from the federal highway construction trust funds are pledged to the repayment of the GANS. Up to \$900,000,000 of said notes may be paid off through the issuance of authorized general obligation bonds of the Commonwealth in the event federal financial assistance is not available. At June 30, 2000, the Commonwealth has \$921,720,000 of GANS outstanding, including accrued interest on capital appreciation bonds with maturity dates ranging from 2005 to 2015. These notes are secured by the pledge of Federal Highway Construction Reimbursements without a general obligation pledge.

For financial reporting purposes, long-term debt is carried at its face value, which includes discount and any issuance costs financed. The outstanding amount represents the total principal to be repaid. For capital appreciation bonds, the outstanding amount represents

total principal and interest to be repaid. When short-term debt has been refinanced on a long-term basis, it is reported as outstanding at its face amount.

The amount of long-term debt authorized but unissued is measured in accordance with the statutory basis of accounting. Only the net proceeds (exclusive of discount and costs of issuance) are deducted from the total authorized by the Legislature.

Long-term debt outstanding (including discount and issuance cost) and debt authorized-unissued at June 30, 2000 as follows (amounts in thousands):

Purpose	Bonds Outstanding	Maturities	Authorized and Unissued
GANS.....	\$ 921,720	2005-2015	\$ 600,009
Capital Projects:			
General.....	4,837,004	2000-2025	3,748,601
Highway.....	5,144,276	2000-2018	6,255,614
Local Aid.....	1,403,153	2000-2017	210,136
Other.....	76,948	2000-2025	771,346
	<u>11,461,381</u>		<u>10,985,697</u>
Total.....	<u>\$ 12,383,101</u>		<u>\$ 11,585,706</u>

Interest rates on the Commonwealth's debt outstanding at the end of fiscal year 2000 ranged from 0.1% to 8.0%.

Changes in long-term debt outstanding (including discount and issuance cost) and bonds authorized - unissued for the year ended June 30, 2000 are as follows (amounts in thousands):

	Bonds Outstanding	Authorized and Unissued
Balance July 1, 1999.....	\$ 11,808,461	\$ 12,004,017
General and special obligation bonds:		
Principal, less discount and issuance costs.....	1,761,620	(1,761,620)
Discount and issuance costs.....	(3,478)	-
County debt:		
Principal of bonds assumed.....	525	-
Defeased Debt:		
Principal on Defeased Debt.....	(247,840)	-
Discount on Defeased Debt.....	(264,723)	-
Increase in bonds authorized.....	-	4,116,541
Contributions in lieu of bonds.....	-	(5,453)
Bonds retired.....	(671,464)	-
Deauthorized.....	-	(2,562,153)
Reversions.....	-	(205,626)
Balance June 30, 2000.....	<u>\$ 12,383,101</u>	<u>\$ 11,585,706</u>

At June 30, 2000, debt service requirements to maturity for principal (including discount, capital appreciation and issuance costs) and interest are as follows (amounts in thousands):

Fiscal year ending June 30,	Principal	Interest	Total
2001.....	\$ 734,015	\$ 605,013	\$ 1,339,028
2002.....	707,106	567,855	1,274,961
2003.....	723,861	535,463	1,259,324
2004.....	731,159	503,522	1,234,681
2005.....	742,212	470,530	1,212,742
2006 and thereafter....	<u>8,744,748</u>	<u>2,583,320</u>	<u>11,328,068</u>
Total.....	<u>\$ 12,383,101</u>	<u>\$ 5,265,703</u>	<u>\$ 17,648,804</u>

The Commonwealth issued bonds and notes through negotiated contracts during fiscal year 2000. The costs for legal counsel and underwriting fees for negotiated bond sale were \$248,000 and \$8,872,000 respectively. In addition, the Commonwealth paid \$117,000 for disclosure counsel services.

Advance Refunding and Bonds Defeased – During fiscal year 2000, as authorized by the Massachusetts General Laws, the Commonwealth defeased certain general obligation bonds through the use of \$400,000,000 of FY99 operating surplus. For the fiscal year, proceeds totaling approximately \$400,000,000 were used to purchase U. S. Government securities which were deposited in irrevocable trusts with an escrow agent to provide for all future debt service payments of the bonds. As a result, the bonds are considered to be defeased, and the liabilities therefore have been removed from the General Long-term Obligations Account Group. Through this action, the Commonwealth decreased debt service payments by approximately \$578,922,000 over the next 9 years. At June 30, 2000, approximately \$508,450,000 of the bonds refunded remain outstanding.

At the end of fiscal year 2000, pursuant to the provisions of Chapter 87 of the Acts of 2000, the Commonwealth set aside \$650,000,000 of surplus funds in the debt defeasance fund, attributable to fiscal year 2000 and prior years, to defease additional debt of the Commonwealth. On July 28, 2000, the State Treasurer expended approximately \$182,000,000 from the Debt Defeasance Trust Fund to purchase securities and establish a sinking fund to provide for the payment of certain Commonwealth general obligation bonds maturing on August 1, 2000. On August 9, 2000, the State Treasurer expended in addition, approximately \$217,700,000 from the Debt Defeasance Trust Fund to purchase securities and establish a sinking fund to provide for the payment of additional Commonwealth general obligation bonds maturing on various dates through February 1, 2001.

The securities purchased on August 9, 2000 consisted of certain obligations issued by the Federal Home Loan

Mortgage Corporation and the Federal National Mortgage Association which are being held by a third-party trustee in an irrevocable trust. The approximate principal amount of Commonwealth general obligation bonds defeased pursuant to the July 28, 2000 and August 9, 2000 transactions is \$392,300,000. The amounts that would have been expended for debt service on such bonds in fiscal 2001 (approximately \$404,000,000) will be deposited in the Central Artery and Statewide Road and Bridge Infrastructure Fund.

In prior years, the Commonwealth also defeased certain general obligation and other bonds by placing the proceeds of refunding bonds in irrevocable trusts to provide for all future debt service payments on the refunded bonds. Accordingly, the trust account assets and the liabilities for the defeased bonds are not included in the financial statements. At June 30, 2000, approximately \$2,371,261,000 of bonds outstanding from advance refunding in prior fiscal years are considered defeased.

Statutory Debt Limit –The Massachusetts General Laws establish limits on the amount of direct debt outstanding. By statutorily limiting the Commonwealth's ability to issue direct debt, this limit provides a control on annual capital spending. The direct debt limit for fiscal year 2000 was approximately \$10,549,032,000. Outstanding debt subject to the limit at June 30, 2000 was approximately \$10,120,971,000. The limit increases 5% per year.

For purposes of determining compliance with the limit, outstanding direct debt is defined to include general obligation bonds and minibonds at the amount of their original net proceeds. It excludes BANs and discount and issuance costs, if any, financed by these bonds. It also excludes special obligation bonds, GANs, refunded bonds, certain refunding bonds, debt issued by counties, and debt issued in conjunction with the MBTA forward funding.

The amounts excluded from the debt limit are as follows (amounts in thousands):

	<u>Debt Outstanding</u>
Balance June 30, 2000.....	\$ 12,383,101
Less amounts excluded:	
Discount and issuance cost.....	(358,938)
Chapter 5 of the Acts of 1992 Refunding.....	(114,761)
Special Obligation Principal.....	(561,335)
GANs Principal.....	(899,991)
County Debt Assumed.....	(2,105)
MBTA Forward Funding.....	<u>(325,000)</u>
Outstanding Direct Debt.....	<u>\$ 10,120,971</u>

7. LEASES

In order to finance the acquisition of equipment, the Commonwealth has entered into various lease/purchase agreements, including tax-exempt lease purchase (TELP) agreements, which are accounted for as capital leases. Lease agreements are for various terms and contain clauses indicating that their continuation is subject to appropriation by the Legislature. For the fiscal year ended June 30, 2000, capital lease/purchase expenditures totaled approximately \$86,469,000. At June 30, 2000, the Commonwealth's aggregate outstanding liability under capital leases, the present value of the net minimum lease payments, totals approximately \$123,654,000. This liability is reported in the General Long-Term Obligations Account Group. Equipment acquired under capital leases and included in the General Fixed Assets Account Group totaled approximately \$180,172,000.

The Commonwealth has numerous operating lease agreements for real property and equipment with varying terms. These agreements contain provisions indicating that continuation is subject to appropriation by the Legislature. Operating lease expenditures for the fiscal year ended June 30, 2000 was approximately \$127,254,000.

The following is a schedule of future minimum payments under non-cancelable leases as of June 30, 2000 (amounts in thousands):

Fiscal Year Ending June 30,	Capital Leases	Operating Leases
2001.....	\$ 41,401	\$ 104,106
2002.....	33,306	85,026
2003.....	25,089	71,432
2004.....	16,274	41,580
2005.....	11,599	18,890
2006 and thereafter.....	20,861	3,644
Total.....	148,530	324,678
Less interest.....	(24,876)	-
Present value	<u>\$ 123,654</u>	<u>\$ 324,678</u>

8. INDIVIDUAL FUND DEFICITS

Certain Budgeted, Non-Budgeted Special Revenue and Capital Projects Funds included in the combined totals have individual fund deficits at June 30, 2000, as follows (amounts in thousands):

Budgeted Funds:	
Mosquito and Greenhead Fly Control Fund.....	\$ 1,001
Environmental Challenge Fund.....	5,087
Toxic Use Reduction Fund.....	5,949
Environmental Permitting and Compliance Assurance Fund.....	34,474
Environmental Law Enforcement Fund.....	2,914
Public Access Fund.....	283
Harbors and Inland Waters Maintenance Fund.....	4,537
Marine Fisheries Fund.....	4,359
Low-Level Radioactive Waste Management Fund.....	501
Clean Air Act Compliance Fund.....	496
Second Century Fund.....	4,843
Anti-trust Law Enforcement Fund.....	2,519
Victim and Witness Assistance Fund.....	7,484
Intercity Bus Capital Assistance Fund.....	6,470
Ponkapoag Recreational Fund.....	100
Leo J. Martin Recreation Fund.....	195
Local Consumer Inspection Fund.....	574
Total Budgeted Funds.....	<u>81,786</u>
Non-Budgeted Special Revenue:	
Other:	
Government Land Bank Fund.....	35,097
Motor Vehicle Safety Inspection Trust Fund.....	9,498
Grant Anticipation Note Trust Fund.....	158,569
Total Non - Budgeted Funds.....	<u>203,164</u>
Capital Projects:	
General Capital Projects Fund.....	43,280
Boston Convention and Exhibition Center Fund.....	29,802
Capital Expenditure Reserve Fund.....	42,154
Local Capital Project Grant Fund.....	10,021
Highway Capital Projects Fund.....	567,185
Government Land Bank Fund.....	13,880
Intercity Bus Fund.....	3,531
Total Capital Projects Funds.....	<u>709,853</u>
Total	<u>\$ 994,803</u>

In order to resolve the deficits in the budgeted funds, the Comptroller has recommended authorization of transfers from other budgeted funds with surplus balances or a plan of fund consolidation. If these changes are adopted by the Legislature, the deficiencies will be resolved. For the Non-Budgeted Special Revenue Funds, the Comptroller has recommended similar budgeted transfers to subsidize and resolve the deficits or their consolidation into budgeted funds. Such steps require legislative action.

In the Capital Project Funds, approximately \$97,103,000 of the deficit reflects the time lag between capital expenditures and the receipt or allocation of proceeds from the sale of related bonds. \$612,750,000 of this deficit is due to the cost related to forward funding the MBTA. The Legislature has established a 20-year amortization of this deficit.

9. MEDICAID COSTS

The Commonwealth provides medical care for low-income, elderly and other residents who qualify for such assistance under the federally-sponsored Medical Assistance Program (Medicaid). The Commonwealth pays the full cost of care and is reimbursed by the federal government for 50% of that cost. For the fiscal year ended June 30, 2000, the General Fund and Children's and Seniors' Health Fund include \$4,269,991,000 in expenditures for Medicaid claims processed for payment.

The combined financial statements – statutory basis include Medicaid claims processed but unpaid at June 30, 2000, as accounts payable of approximately \$49,733,000. The Commonwealth estimates its total liability, as determined in accordance with GAAP, at \$659,600,000 including the amounts reported as accounts payable at June 30, 2000. This amount includes estimates of both the cost of care provided as of June 30, 2000, for which claims have not been processed and other costs. Of this amount, \$387,200,000 is expected to be reimbursed by the federal government.

10. TOBACCO SETTLEMENT

On November 23, 1998, the Commonwealth joined a multi-state agreement known as the Master Settlement Agreement (MSA) which resolved Massachusetts' and other states' litigation against the cigarette industry. Under the MSA, there are both "annual payments" and "initial payments." The annual payments are made to each settling state, including the Commonwealth, in perpetuity. There are five initial payments to be paid

annually between 1999 and 2003. Each payment is expressed in the MSA as a “base amount,” subject to adjustments, reductions or offsets that might be applicable each year under the MSA. The initial adjustment will be upward by 3% or the prior year’s percentage increase in the Consumer Price Index, whichever is greater. Downward adjustments could occur based on a decrease in domestic cigarette sales volume or if funding made available to the states under qualifying federal legislation.

Massachusetts’ allocable share of the base amounts payable under the MSA is 4.0389790%. The Commonwealth has estimated its allocable share of the MSA base amounts over the next 25 years to be approximately \$7.6 billion. This estimate does not, however, consider the effect of the annual adjustments, reductions or offsets for inflation and other factors mandated by the MSA. Generally, the calculation of these adjustments requires information that is not available until the end of the calendar year prior to the year a payment is due.

On December 14, 1999, the Commonwealth received the 1999 initial payment of approximately \$99,700,000. On December 31, 1999, the Commonwealth received the 2000 initial payment of approximately \$87,000,000. In April 2000, the Commonwealth received the first annual payment of approximately \$139,000,000.

Massachusetts was also awarded \$414,000,000 from a separate Strategic Contribution Fund established under the MSA to reward a state’s particular contribution to the national tobacco litigation effort. This additional amount is payable in equal annual installments during the years 2008 through 2017.

The amounts that might be payable, if any, by the Commonwealth for legal costs in relation to the tobacco litigation cannot be determined at this time. The outside attorneys for the Commonwealth were awarded approximately \$775,000,000 in fees to be paid over time by the tobacco companies and, therefore, were not to be paid out of the Commonwealth award. The outside attorneys have notified the Attorney General that they reserve their right to submit a claim to the Commonwealth for the difference between the \$775,000,000 and 25% of the Commonwealth’s settlement payments.

During fiscal year 2000, the Legislature enacted two related laws to provide for disposition of the tobacco settlement payments. The new legislation created a

Health Care Security Trust (Trust) into which the Commonwealth’s annual tobacco settlement payments are to be deposited. The Trust was established for “the purpose of financing improved health status for all citizens of the Commonwealth.” Among other things, the Trust is to be credited “any monies received by the Commonwealth pursuant to the master settlement agreement in the tobacco action, other than payments for attorney fees....” The new legislation also created a separate Tobacco Settlement Fund (Fund). Prescribed amounts are transferred annually by the Comptroller from the Trust to the Fund. Amounts credited to the Fund “shall be expended, subject to appropriation, to supplement existing levels of funding for... health related services and programs [including] services and programs intended to control or reduce the use of tobacco in the commonwealth.” In each fiscal year from 2000 – 2004, specific amounts are to be transferred from the Trust to the Fund. In later fiscal years, the Comptroller is to transfer to the Fund 30% of that year’s tobacco settlement payment and 30% of the earnings generated that year on Trust principal.

11. RETIREMENT SYSTEMS

Primary Government – The Commonwealth is statutorily responsible for the pension benefits for Commonwealth employees (members of the State Employees’ Retirement System) and for teachers of the cities, towns, regional school districts throughout the Commonwealth and Quincy College (members of the Teachers’ Retirement System, except for teachers in the Boston public schools, who are members of the State-Boston Retirement System but whose pensions are also the responsibility of the Commonwealth).

The members of the retirement systems do not participate in the Social Security System. The Commonwealth has assumed responsibility for payment of cost-of-living adjustments (COLA) for the separate (non-teacher) retirement systems of its cities, towns and counties, granted in fiscal year 1997 and prior. The Commonwealth is statutorily required to have an actuarial valuation once every three years and every two years on a GAAP basis.

Certain Commonwealth employees and current retirees employed prior to the establishment of the State Employees’ Retirement System are covered on a “pay-as-you-go” basis. During the year ended June 30, 2000, the Commonwealth’s pension expenditure included payments totaling \$18,362,444 to current retirees

employed prior to the establishment of the current plans and the non-contributory plans.

Plan Descriptions –

State Employees' Retirement System (SERS) is a single employer defined benefit public employee retirement system (PERS), covering substantially all employees of the Commonwealth and certain employees of the independent authorities and agencies, including the state police officers at the Massachusetts Port Authority and the Massachusetts Turnpike Authority. The SERS is administered by the Commonwealth and is part of the reporting entity and does not issue a stand alone financial report.

Teachers' Retirement System (TRS) is an agent multiple employer defined benefit PERS with 104 participating employers. The Commonwealth is a non-employer contributor and is responsible for all contributions and future benefit requirements of the TRS. The TRS covers certified teachers in cities (except the City of Boston), towns, regional school districts and Quincy College. The TRS is administered by the Commonwealth and is part of the reporting entity and does not issue a stand-alone financial report.

State – Boston Retirement System (SBRS) is hybrid multiple employer defined benefit PERS. SBRS provides pension benefits to all full-time employees upon commencement of employment with any of the various government agencies covered by SBRS. The Commonwealth is a non-employer contributor and is only responsible for the actual cost of pension benefits for SBRS participants who serve in the City of Boston's School Department in a teaching capacity. The cost of pension benefits of the other participants is the responsibility of the City of Boston. SBRS is not administered by the Commonwealth and is not part of the reporting entity and a stand-alone financial report is not available.

The policy for postretirement benefit increases for all retirees of the SERS, TRS, SBRS and COLA of local governments are subject to legislative approval.

Membership – Membership in SERS, TRS and SBRS as of January 1, 2000, the date of the most recent valuation, is as follows:

	<u>SERS</u>	<u>TRS</u>	<u>SBRS</u>
Retirees and beneficiaries			
currently receiving benefits.....	43,737	31,746	2,241
Terminated employees entitled to			
benefits but not yet receiving them...	2,986	-	307
Subtotal.....	46,723	31,746	2,548
Current employees:			
Vested.....	45,584	33,132	1,054
Non-vested.....	39,988	49,110	4,074
Subtotal.....	85,572	82,242	5,128
Total.....	132,295	113,988	7,676

During fiscal year 1998 and 1999, the counties of Franklin, Middlesex, Worcester, Hampden and Hampshire and in fiscal year 2000 Berkshire County were abolished. The pension liability of all active employees who transferred to the Commonwealth was assumed by SERS.

Benefit Provisions – Massachusetts General Laws established uniform benefit and contribution requirements for all contributory PERS. These requirements provide for retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. Benefit payments are based upon a member's age, length of creditable service, and group classification. The authority for amending these provisions is with the Legislature.

Retirement allowance consists of two parts: an annuity and a pension. A member's accumulated total deductions and a portion of interest they generate constitute the annuity. The differential between the total retirement benefit and the annuity is the pension. Average retirement benefit is approximately 80-85% pension and 15-20% annuity.

Members become vested after ten years of creditable service. A superannuation retirement allowance may be received upon the completion of twenty years of service or upon reaching the age of 55 with ten years of service. Normal retirement for most employees occurs at age 65; for certain hazardous duty and public safety positions, normal retirement is at age 55.

Funding Progress - The SERS, TRS and SBRS actuarial determined contributions were computed as part of the actuarial valuation as of January 1, 2000. The Commonwealth has revised one actuarial assumption used in the calculation of contribution requirements and Unfunded Actuarial Liability (UAL). The

Commonwealth is transitioning its UAL from a market value of assets to an actuarial valuation of assets. In the second year of transition the Commonwealth's 2000 actuarial valuation used a market value of assets of 91% compared to 97% in the 1998 valuation. This change results in a \$1,800,000,000 increase in UAL. Other significant assumptions used are (a) projected salary

increases of 6% per year, (b) cost of living (inflation rate) increases of 3% per year on the first \$12,000 of the retirees total allowance, and (c) interest rate credited to the annuity savings fund of 5.5% per year. These calculations use a level dollar amortization method over 20-years closed period.

The following table presents the schedule of funding progress as presented in the six most recent actuarial valuations at the dates indicated (amounts in thousands):

Actuarial Valuation as of January 1	Actuarial Value of Plan Assets	Actuarial Accrued Liability	Unfunded Actuarial Liability (UAL)	Funded Ratio %	Annual Covered Payroll *	UAL as a % of Covered Payroll
State Employees' Retirement System						
2000**	\$ 13,364,000	\$ 14,138,000	\$ 773,000	94.5 %	\$ 3,472,000	22.3 %
1998**	9,914,000	11,361,000	1,447,000	87.3	3,111,000	46.5
1996	7,366,000	9,441,000	2,075,000	78.0	2,989,000	69.4
1995	5,879,000	8,602,000	2,723,000	68.3	2,992,000	91.0
1993	5,071,000	8,738,000	3,667,000	58.0	2,919,000	125.6
1992	4,699,000	7,303,000	2,604,000	64.3	2,638,000	98.7
Teachers' Retirement System

* - The covered payroll amounts approximate the employer payroll.

** - Revised actuarial assumptions

Pension Actuarial Valuation – While completing the January 1, 1998 Commonwealth actuarial valuation report, the Public Employee Retirement Administration Commission (PERAC) entered into an agreement to lease a new actuarial valuation system. The new system replaced a system that had been in place since the mid-

1980's. During the testing and implementation of the new system, the January 1, 1998 valuation was rerun using the new software. The new system calculated an actuarial accrued liability of \$28.6 billion as of January 1, 1998 that was 7% or \$2.0 billion higher than originally reported. All actuarial assumptions used in the

calculations were unchanged. The Commonwealth believes there are several factors that account for the variance. The first factor is the reasonable inherent risk associated with using two different software applications; certain variations in the results of an actuarial valuation are expected when changing actuarial software. The second is the high number of calculations required in a valuation of this magnitude coupled with the allocation of plan liabilities between normal cost and accrued liability. The third factor is the old system and new system calculated retirement benefits differently as compared to ancillary benefits, which include death and disability benefits as well as benefits of employees who leave service. PERAC performed quality control checks on the data, and validated the software with six outside actuaries. All test results were within an acceptable actuarial range and the new software is being used to perform the valuation as of January 1, 2000.

The Commonwealth was financially responsible for the COLA granted to participants in the 104 retirement systems of cities, towns and counties in fiscal year 1997 and prior fiscal years. Chapter 17 of the Acts of 1997 effective for fiscal year 1998 transferred the responsibility for funding COLAs for separate (non-teacher) retirement systems of cities and towns to the respective system. Any future COLA granted by the Legislature to employees of these plans will be the responsibility of the individual system. The individual employer governments are also responsible for the basic pension benefits. The retirement systems are not administered by the Commonwealth and are not part of the reporting entity. The actuarial accrued liability for COLA as of January 1, 2000 was \$803,000,000.

Contributions Required and Contributions Made – The retirement systems’ funding policies have been established by Chapter 32 of the Massachusetts General Laws. The Legislature has the authority to amend these policies. The annuity portion of the SERS, TRS and SBRS retirement allowance is funded by employees, who contribute a percentage of their regular compensation – 5% for those hired before January 1, 1975, 7% for those hired from January 1, 1975, through December 31, 1983 and 8% for those hired on or after January 1, 1984, plus an additional 2% of compensation above \$30,000 per year for those hired on or after January 1, 1979. Regular employees and state police hired after June 30, 1996 are required to contribute 9% and 12% respectively of their regular compensation plus an additional 2% of compensation above \$30,000 per year. Costs of administering the plan are funded out of plan assets.

The Commonwealth’s contribution for the pension benefit portion of the retirement allowance of SERS and TRS and required payments to cover SBRS and COLA contributions were originally established on a “pay-as-you-go” basis. As a result, amounts were appropriated each year to pay current benefits, without a systematic provision to fully fund future liabilities already incurred. Beginning in fiscal year 1988, the Commonwealth enacted the Pension Reform Act of 1987 and addressed the unfunded liability of SERS, TRS and its participation in SBRS and its COLA obligation. Chapter 32, Section 22C of General Laws enacted in 1998 calls for the payment of normal cost plus an amortization payment of UAL such that the UAL is reduced to zero by June 30, 2018.

This legislation also directs the Secretary of Administration and Finance to prepare a funding schedule to meet these requirements, and to update this funding schedule every three years on the basis of new actuarial valuation reports prepared under the Secretary’s direction. Any such schedule is subject to legislative approval. If a schedule is not so approved, payments are to be made in accordance with the most recently approved schedule. The current legislatively approved funding schedule, a valuation as of January 1, 1999, was filed by the Secretary of Administration and Finance on March 1, 2000 has been deemed approved by the Legislature. Under the current schedule the amortization payments are designed to eliminate the unfunded liability by fiscal year 2018. Based on the previous funding schedule required contributions by the Commonwealth of \$910,024,000 were made during the fiscal year ended June 30, 2000. Of this amount \$124,494,000 represents payments for COLA granted to participants in retirement systems of cities, towns and counties.

GAAP requires that pension expenditures (costs) be based on an acceptable actuarial cost method and that they be not less than:

- Normal cost plus amortization of net pension obligation cost
- Interest and amortization on any unfunded prior service costs

The funding schedule discussed above follows an acceptable actuarial funding methodology to compute normal cost and the unfunded accrued actuarial liability.

The following table presents the schedule of employer contributions (amounts in thousands):

Actuarial Valuation as of January 1	Annual Required Contribution (ARC)	Interest on NPO	Amortization of NPO	Pension Cost	Actual Contribution Made	Net Pension (Obligation) Asset (NPO)	% of ARC Contributed	% of Pension Cost Contributed
State Employees' Retirement System

1995	28,168	(1,816)	1,126	27,478	28,000	21,887	99	102
1994	22,448	(1,216)	603	21,835	28,000	21,365	125	128
1993	20,463	(650)	316	20,129	27,200	15,200	133	135
1992	26,530	(634)	303	26,199	26,400	8,129	100	101
1991	23,149	(413)	193	22,929	25,700	7,928	111	112

The total contributions required for SERS, TRS and SBRS are based on the entry age normal cost method using the same actuarial assumptions used to compute the net pension obligation.

Post-retirement Health Care and Life Insurance Benefits – In addition to providing pension benefits, under Chapter 32A of the Massachusetts General Laws, the Commonwealth is required to provide certain health care and life insurance benefits for retired employees of the Commonwealth, housing authorities, redevelopment authorities, and certain other governmental agencies. Substantially all of the Commonwealth's employees may become eligible for these benefits if they reach retirement age while working for the Commonwealth. Eligible retirees are required to contribute a specified percentage of the health care benefit costs which is comparable to contributions required from employees. The Commonwealth is reimbursed for the cost of benefits to retirees of the eligible authorities and non-state agencies. The Commonwealth recognizes its share of the costs of providing these benefits when paid. These payments totaled approximately \$198,746,000 for the fiscal year ended June 30, 2000. There are approximately 45,700 participants eligible to receive benefits at June 30, 2000.

12. COMMITMENTS

Under Chapter 161B of the General Laws, the Commonwealth has been obligated to provide annual subsidies to certain regional transit authorities for contract assistance, debt service assistance and their net cost of service deficiencies. The Commonwealth recovers a portion of these payments through assessments to the cities and towns served. During fiscal year 2000, net expenditures were \$40,192,000. In addition, for FY01, the Commonwealth appropriated \$41,196,000 to the regional transit authorities to cover net costs of service for the calendar year ended December 31, 1999.

The Commonwealth was also obligated to provide contract assistance to the MBTA until June 30, 2000. Such assistance totaled \$277,951,019 through fiscal year 2000. The Commonwealth will continue to guarantee MBTA debt outstanding at June 30, 2000, which totaled \$3,602,360,000, but will no longer provide contract assistance.

The MBTA's forward funding legislation provides for the MBTA to issue general obligation, revenue or other debt secured by a pledge or conveyance of all or a portion of revenues, receipts or other assets or funds of the MBTA. This debt is not backed by the full faith and

credit of the Commonwealth. Finally, the MBTA will not receive any principal or interest subsidies from the Commonwealth for the repayment of either the prior debt or new debt of the MBTA beyond the pledged revenues discussed in note two.

In addition to the MBTA, the Commonwealth guarantees debt of a number of Public Authorities. At June 30, 2000, the aggregate outstanding debt for which the Commonwealth is obligated to provide contract assistance support totaled approximately \$291,299,000 long-term and \$77,012,000 short-term.

In addition, the Commonwealth guarantees the debt of certain local governments and public higher education building authorities but does not provide contract assistance. The guaranteed long-term debt outstanding at June 30, 2000 was approximately \$212,451,000.

On June 1, 2000 the Town of Foxborough, acting by and through the Foxborough Industrial Development Financing Authority, issued \$69,810,000 of its Foxboro Stadium Infrastructure Improvement Bonds payable from Commonwealth contract assistance. The bonds are Commonwealth supported debt.

At June 30, 2000, the Commonwealth had commitments of approximately \$1,845,373,000 related to ongoing construction projects. The majority relate to construction funding for the Central Artery/Tunnel Project. The Central Artery/Tunnel Project continues to anticipate federal participation and payments from the Massachusetts Turnpike Authority (MTA) and the Massachusetts Port Authority (MassPort).

On August 17, 2000, the Route 3 North Transportation Improvements Association issued its Commonwealth of Massachusetts Lease Revenue Bonds, Series 2000, in the aggregate principal amount of \$394,305,000, payable from lease payments to be appropriated annually by the Commonwealth through fiscal 2033. The bonds are an indirect obligation of the Commonwealth.

Saltonstall Building - On July 19, 2000, after reviewing proposals received from various development teams to redevelop the Saltonstall State Office Building, the Governor filed legislation that would authorize the Massachusetts Development Finance Agency (MDFA) to undertake the redevelopment. The provisions of the Governor's bill were added to the bond authorization legislation approved August 10, 2000 relating to preservation and management of the Commonwealth's real property assets. Under the provisions relating to the

Saltonstall Building, the building is to be leased by the MDFA for a lease term of up to 50 years, with extension terms permitted for an aggregate of 30 more years). The MDFA will renovate the building and lease half of it back to the Commonwealth for office space and related parking (for a comparable lease term). The remainder of the building is to be redeveloped as private office space, as well as private housing units and retail establishments.

Central Artery / Tunnel Project – The Central Artery / Tunnel Project is the largest single component of the Commonwealth's capital program. During fiscal 2000, the MTA, manager of the Central Artery / Tunnel Project filed various financial plan updates with the Federal Highway Administration. As of the finance plan filed as of October 1, 2000, the current cost estimate for the project, is \$14.075 billion, which includes a maximum obligation of \$8.549 billion from the federal government. The finance plan is currently under review.

In connection with the Central Artery / Tunnel Project, on May 8, 2000, the State Treasurer's office was advised that the staff of the Securities and Exchange Commission (SEC) is conducting a formal investigation in the matter of "Certain Municipal Securities/Massachusetts Central Artery (B-1610)." This is pursuant to a formal order of private investigation issued by the SEC. The attorneys on behalf of the Commonwealth believe that the likelihood of loss by the Commonwealth is remote.

During fiscal year 2000, the Commonwealth received payments from MTA and MassPort pursuant to three separate memoranda of understandings dated September 12, 1997 and August 13, 1998 and February 19, 1999 respectively. The MTA and MassPort made payments to the Commonwealth to finance portion of the Central Artery/Tunnel Project in the amount of \$100,000,000 and \$52,438,000 respectively.

The remaining future payments are as follows:
(Amounts in thousands)

Fiscal Year	MTA	MassPort
2001.....	\$ 204,000	\$ 65,000
2002.....	-	-
2003.....	-	105,000
2004.....	-	50,000
2005.....	-	50,000
2006.....	-	-
Total.....	<u>\$ 204,000</u>	<u>\$ 270,000</u>

13. CONTINGENCIES

A number of lawsuits are pending or threatened against the Commonwealth, which arise from the ordinary course of operations. These include claims for property damage and personal injury, breaches of contract, condemnation proceedings and other alleged violations of law. For those cases in which it is probable that a loss will be incurred and the amount of the potential judgment can be reasonably estimated or a settlement or judgment has been reached but not paid, the Attorney General estimates the liability to be approximately \$32,000,000 to be paid during FY01. No accrual has been made for this amount in the combined financial statements – statutory basis.

Under the statutory basis of accounting, workers' compensation costs are recognized when claims are presented and paid. The Commonwealth's outstanding liability for such claims at June 30, 2000, is estimated to be \$255,100,000, of which approximately \$36,100,000 is expected to be paid during fiscal year 2001. No accrual has been made for these amounts in the combined financial statements – statutory basis.

The Commonwealth receives significant financial assistance from the federal government. Entitlement to these resources is generally contingent upon compliance with terms and conditions of the grant or reimbursement agreements and with applicable federal regulations, including the expenditure of the resources for eligible purposes. Substantially all federal financial assistance is subject to financial and compliance audits. Any disallowances become liabilities of the fund which received the assistance. At June 30, 2000, the Commonwealth estimated that liabilities, if any, which may result from such audits are not material.

Chapter 200A of the Massachusetts General Laws, the Commonwealth's Abandoned Property Law, requires deposit of certain unclaimed assets into a managed Fiduciary Fund. These unclaimed assets, less \$6,549,000, which is expected to be reclaimed and paid in fiscal year 2001, are to be remitted to the General Fund each June 30, where it is included as miscellaneous revenue. Amounts remitted during fiscal year 2000 totaled approximately \$60,406,000. Since inception, approximately \$882,022,000 has been remitted. A portion of this amount represents a contingency, because claims for refunds can be made by the owners of the property.

14. NON-TAX REVENUE INITIATIVES

Chapter 653, Acts of 1989, amended Chapter 29 of the Massachusetts General Laws by adding Sections 29D and 29E, which authorize certain non-tax revenue initiatives and require reporting thereon, as follows.

Debt Collection Pursuant to Massachusetts General Laws Chapter 29, Section 29D, Chapter 7A Section 8, allows private debt collection agencies to engage in debt collection for the Commonwealth. The fees paid are contingency based from the proceeds collected. Collections and fees paid during fiscal year 2000 were:

<u>Department Collectors</u>	<u>Collections</u>	<u>Fees</u>
Allen Daniel Associates.....	\$ 85,240	\$ 13,957
Collection Company of America.....	309,302	71,048
Gragil Associates.....	76,558	18,316

Walker Associates.....	483,917	70,566
Windham Professionals.....	1,006,950	613,912
Total.....	<u>\$ 2,514,406</u>	<u>\$ 921,836</u>

Under a similar program for the Commonwealth's public institutions of higher education, the following amounts were collected and fees paid:

<u>Department Collectors</u>	<u>Collections</u>	<u>Fees</u>
Allen Daniel Associates.....	\$ 810,445	\$ 137,645
Collection Company of America.....	2,733,050	701,019
Glenn Associates.....	484,541	97,076
Gragil Associates.....	6,482	1,818
NCO.....	4,117	587
OSI.....	624,608	145,821
Windham Professionals.....	212,265	38,557
Total.....	<u>\$ 4,875,508</u>	<u>\$ 1,122,523</u>

Revenue Maximization – Pursuant to Massachusetts General Law Chapter 29 Section 29E and Chapter 127 Section 230 of the fiscal year 2000 Budget, contractors were engaged on a contingent fee basis to assist several of the Commonwealth's departments in the identification and collection of federal and other revenues. During fiscal year 2000, approximately \$117,884,790 was collected through such efforts. After contractor programs and fees of \$22,556,053 were paid on a contingent basis, the Commonwealth received approximately \$95,328,737.

Revenue Optimization – Pursuant to Massachusetts General Law Chapter 29 Section 29E and Chapter 127

Section 230 of the fiscal year 2000 Budget, contractors were engaged on a contingent fee basis to assist several of the Commonwealth's departments in the identification and collection of federal and other revenues. During fiscal year 2000, approximately \$23,089,000 was collected through such efforts. After contractor payments of \$72,000, department incentives of \$2,500,000, and fund splits of \$552,000, the Commonwealth had a net revenue of \$19,964,000 to the General Fund.

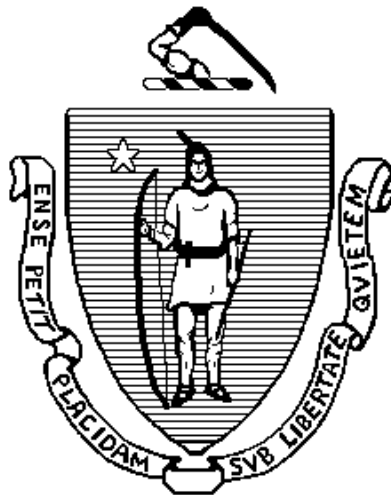

Cost Avoidance – Pursuant to Chapter 127 of Section 233 of the fiscal year 2000 Budget, the Comptroller's Office is authorized to engage vendors for the purpose of identification and pursuit of cost savings/avoidance opportunities. For fiscal year 2000 there was one department engaged in a Section 233 procurement/project. In fiscal year 2000, estimated total cost avoidance based on actuarial calculations was approximately \$81,768,000 and fees paid to outside consultants were \$2,453,000. The Commonwealth had a savings of \$79,315,000.

Utility Audits – Massachusetts General Law, Chapter 20 Section 29G, authorizes the Department of Procurement and General Services to solicit services and enter into contingent contracts on behalf of governmental entities for the potential of recoupment of overcharges associated with utility expenses. During fiscal year 2000, approximately \$55,346 was recouped and \$27,289 was paid or payable to the Cost Control Associates and the Utility Management Group, resulting in a net benefit to the Commonwealth of approximately \$28,057. As of June 30, 2000, there were seven reviews for municipalities that have taken advantage of the master service agreement negotiated by Procurement and General Services.

15. SUBSEQUENT EVENTS

County - Subsequent to year-end, one additional county was abolished. The county of Berkshire was transferred on July 1, 2000. The Commonwealth will include in its audited financial statements the financial activity of abolished counties in the fiscal year the actual transfers occur.

Combining and Individual Fund Financial Statements - Statutory Basis

THIS PAGE LEFT INTENTIONALLY BLANK

Individual Budgeted Funds

GENERAL FUND:

The General Fund is the Commonwealth's primary Governmental Fund. All governmental activities not specifically directed to another fund are accounted for in the General Fund. As a result, most budgeted expenditures of the Executive secretariats, the Legislature, constitutional offices, Judiciary, institutions of higher education and independent commissions are paid for from the General Fund. It similarly receives a significant portion of sales, individual income and corporate taxes, and the full amount of most other governmental taxes.

HIGHWAY FUND:

The Highway Fund accounts for highway user taxes including the gas tax and fees; used to finance highway maintenance and safety services, and provide matching funds for federally sponsored highway projects as required.

Infrastructure Fund (Subfund of Highway Fund) details specific components of revenue and expenditure related to the Highway Fund segregated per instructions in Section 2 O of Chapter 29 of the General Laws.

LOCAL AID FUND:

The Local Aid Fund accounts for revenue from sales, income, and other corporate taxes and lottery profits, which have been earmarked for distribution to cities and towns or are used to finance programs that benefit local communities.

COMMONWEALTH STABILIZATION FUND:

The Commonwealth Stabilization Fund accounts for amounts calculated in accordance with state finance law and maintain a reserve to enhance the Commonwealth's fiscal stability.

ADMINISTRATIVE CONTROL FUNDS:

To account for the revenues generated by certain administrative functions of government, for which the Legislature has required that separate funds be established.

Tax Reduction Fund accounts for the maintenance of a reserve which shall be used only to reduce personal income taxes.

Intragovernmental Service Fund accounts for the charges of any state agency for services provided by another state agency, for example, charges levied by the public employee retirement administration for worker's compensation chargeback.

Revenue Maximization Fund accounts for increased collections as a result of special initiatives; these revenues become available for expenditure by the various state agencies.

Collective Bargaining Reserve Fund accounts for transfers from the general fund which may be used to fund negotiated contracts for state employees.

Transitional Escrow Fund accounts for funds set aside to be held until December 31, 1999 as a reserve per section 46 of Chapter 68 of the Acts of 1999.

Tax Exemption Escrow Trust Fund accounts for a reserve to partly fund the permanent personal income tax cuts enacted by Chapter 175 of the Acts of 1998.

ENVIRONMENTAL FUNDS:

These funds account for a variety of revenues, which finance programs to preserve, protect and enhance the environment.

Natural Heritage and Endangered Species Fund

accounts for revenues from public and private sources and/or the federal government as reimbursements, grants, donations or other receipts; used to acquire by purchase, lease, easement or license land critical to nongame wildlife and endangered species for purposes of protecting and enhancing nongame wildlife.

Mosquito and Greenhead Fly Control Fund

accounts for assessments to cities and towns of various mosquito control districts; appropriated to support activities designed to control mosquitoes and/or greenhead flies.

Inland Fisheries and Game Fund accounts for revenues from license and permit fees for inland fishing, hunting, trapping, and sporting licenses and revenue producing stamps or the sales of land, rights and properties, gifts, interest, and federal grant reimbursements; used for developing, maintaining and operating the division of fisheries.

Environmental Challenge Fund accounts for inappropriate disposal of hazardous waste and other environmental infractions; used for cleanup, control or response actions for oil and hazardous materials, and to reduce the production of hazardous waste.

Toxic Use Reduction Fund accounts for the fees, penalties, and other financial charges collected by the Toxic Use Reduction Institute including grants or gifts collected. Appropriations are for the specific purpose of cleaning up and reducing toxic waste.

Clean Environment Fund accounts for programs for recycling compost, solid waste source reduction and other environmental programs which are financed through unclaimed bottle deposits escheated to the Commonwealth.

Environmental Permitting and Compliance Assurance Fund accounts for revenues from the

issuance of permits for the removal of hazardous materials and certain other fees; used to fund the cost of monitoring, discharge sampling and analysis, inspection, technical assistance, and enforcement activities necessary to ensure compliance by persons holding permits.

Underground Storage Tank Petroleum Product Cleanup Fund accounts for fees, penalties, grants, gifts or other contributions used to provide reimbursements for cleanup and other expenditures incurred as a result of damage caused by underground storage tanks and systems.

Environmental Law Enforcement Fund accounts for revenues from certain gas taxes, grants, and revenue from law enforcement coverage details throughout the Commonwealth; used for operating the division of law enforcement.

Public Access Fund accounts for revenues from certain gas taxes and federal reimbursements; used for the cost of acquisition, construction, maintenance operation and improvement of public access to state waterways.

Harbors and Inland Waters Maintenance Fund accounts for certain gas taxes, fines, permits and federal reimbursements used for maintenance, dredging and cleaning of harbors, inland waters and great ponds.

Marine Fisheries Fund accounts for revenues from certain gas taxes, licenses, and fees; used to manage the division of marine fisheries.

Watershed Management Fund accounts for revenues from the sale of wood products harvested on watershed lands, and assessments from the Massachusetts Water Resource Authority; used to maintain and operate the MDC Watershed Division.

Low Level Radioactive Waste Management Fund accounts for assessments on persons licensed or registered to receive, possess, use, transfer or acquire radioactive material; used for the expenses of the Low Level Radioactive Waste Management Board to carry out its duties.

Asbestos Cost Recovery Fund accounts for revenues from court judgments/settlements relative to the removal of asbestos; used for operations, maintenance, encapsulation and removal of asbestos.

Clean Air Act Compliance Fund accounts for revenues from permit applications and grants; used for the implementation, administration, monitoring and analysis of permitting compliance and enforcement of technical assistance programs.

Solid Waste Disposal Fund accounts for monies received relative to solid waste disposal including assessments from cities and towns to be appropriated for the purpose of management, maintenance and operation of solid waste disposal facilities.

Second Century Fund accounts for fees or charges for use of the Commonwealth's system of parks, forests or other natural resources subject to the oversight of the department of environmental management pursuant to section two of chapter twenty-one; and expenditure for the enhancement, improvement and maintenance of forest and parks systems.

Safe Drinking Water Fund accounts for drinking water assessments to end suppliers engaged in the distribution of water and used for the administration of monitoring federal safe drinking water act.

OTHER FUNDS:

To account for a variety of miscellaneous taxes, fees, fines and other revenues which are restricted to the financing of specific Commonwealth programs.

Child Support Penalty Fee Fund accounts for penalties, fees or interest assessed by IV-D agency to establish the enforcement of child support authorized under Title IV of the Social Security Act.

Workforce Training Fund accounts for revenues from new unemployment surcharge of .075% of unemployment taxable wages on employers; to provide grants to employers and labor groups to

provide education and training to new and existing employees.

Brownfields Revitalization Fund accounts for transfers from General Fund and related interest or investment earnings; amount appropriated for financial assistance to project sites located within Federal Empowerment Zones or Enterprise communities.

Firearms Records Keeping Fund accounts for revenues from firearms registration fees for the purpose of implementing, enhancing and maintaining a state firearms information system.

Clean Election Fund accounts for revenues from the voluntary tax return check off on personal tax returns; for the purpose of payment to eligible candidates for public financing of campaigns for statewide elective office.

Tobacco Settlement Fund accounts for the transfer of all designated schedule of payments received by the Commonwealth pursuant to the Master Tobacco Settlement; amounts appropriated for funding health related services and programs intended to control or reduce the use of tobacco in the Commonwealth.

Antitrust Law Enforcement Fund accounts for fines, penalties received and expenses paid related to actions brought by the Attorney General in connection with antitrust actions.

Victim and Witness Assistance Fund accounts for assessments imposed on individuals convicted of crimes; used to make grants to District Attorney's Offices and the Parole Board for programs serving crime victims and witnesses.

Intercity Bus Capital Assistance Fund accounts for the acquisition of vehicles for inter-city transportation and the revenues and costs associated with their operation.

Motorcycle Safety Fund accounts for motorcycle registration fees collected to administer motorcycle safety programs.

Drug Analysis Fund accounts for certain revenues received by the courts resulting from fines; used for the cost of analysis of controlled substances.

Trust Fund for the Head Injury Treatment Services Fund accounts for revenues from a surcharge on fines resulting from DUI convictions; funds the Massachusetts Rehabilitation Commission's statewide head injury program to develop and maintain non-residential rehabilitation services for head injured persons.

Massachusetts Tourism Fund accounts for revenues received from hotel taxes; used to fund the Office of Travel and Tourism promotions and the Massachusetts Convention Center Authority.

Ponkapoag Recreational Fund accounts for a portion of golf course revenues; used for the capital improvement, purchase of equipment, and maintenance of the golf course.

Leo J. Martin Recreation Fund accounts for a portion of golf course revenues; used for the capital improvement, purchase of equipment and maintenance of the golf course.

Division of Insurance Fund accounts for revenues collected from agent licenses used to fund the cost related to accreditation from the National Association of Insurance Commissioners.

Health Protection Fund accounts for a portion of the cigarette tax, penalties, forfeitures, interest, settlements of lawsuits and fines collected in connection with sales of cigarettes; used to supplement existing funding for school health education programs, workplace and community smoking prevention and cessation programs, public service advertising, and for support of community health centers and their programs of prenatal and maternal care.

State Building Management Fund accounts for revenue rentals and commissions, such as parking fees and expenditures for the maintenance and operation of the Massachusetts Information Technology Center, the Springfield State Office

Building, the State Transportation Building and other facilities.

Reggie Lewis Track and Athletic Center Fund accounts for revenues from user fees, concession stand commissions and other fees; used for equipment repair, maintenance and nonpayroll operating expenses.

Assisted Living Administration Fund accounts for certification fees; used for operating expenses associated with the regulation of Elder Affairs Assisted Living.

Commonwealth Economic Development Fund accounts for monies transferred from the federal loan interest fund; used to promote employee and worker training, education and the general economic development of the Commonwealth.

Commonwealth Cost Relief Fund accounts for transfers from other funds; used for subsidies and other assistance for water pollution abatement projects, mitigation of sewer rate increases, and for extraordinary expenditures of the Commonwealth.

Children's and Senior's Health Fund accounts for a portion of the cigarette and smokeless tobacco tax, inventory tax and related investment income; to be appropriated for the provision of medical benefits to expansion beneficiaries and a five year pilot program of pharmacy assistance.

Diversity Awareness Education Trust Fund accounts for fines and related interest or investment earnings from the trial courts from assault and battery cases with the intent to intimidate based on race, color, religion, sexual orientation, nationality or disability; to be appropriated for the purpose of developing and maintaining diversity awareness educational programs and courses for persons convicted of such crimes.

Child Care Fund accounts for monies transferred from Transitional Aid to Needy Families Fund; used for the administration of child care programs under the Office of Child Care Services.

Transitional Aid to Needy Families Fund accounts for all federal revenues and reimbursements received by the Commonwealth pursuant to the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, effectively ending Aid to Families with Dependent Children (AFDC) and replacing it with Transitional Aid to Needy Families (TANF) block grants.

Social Services Program Fund accounts for monies transferred from Transitional Aid to Needy Families Fund, used for the operation of the Department of Social Services.

Local Consumer Inspection Fund accounts for all amounts generated from item pricing fines, appropriated to provide financial assistance to eligible local or regional agencies.

Caseload Increase Mitigation Fund accounts for revenues or other financing sources directed by budget to be appropriated for increased costs due to excessive welfare cases or to accommodate for fluctuations in federal funding for the Department of Transitional Assistance.

Boston Convention and Exhibition Center Fund accounts for surcharges imposed on tourist tickets, such as cruise and for any land-based sightseeing located in the Commonwealth to finance the construction of a new Boston Convention Center.

Voting Equipment Loan Fund accounts for transfers from General Fund; loans to municipalities to replace punch card voting systems which shall be repaid to the Commonwealth no later than ten years after such loan is made.

The following funds were closed in fiscal 1999:

Re-Employment and Job Placement Fund accounts for the excise on employer contributions and activities authorized under Title III and Title IX of the Social Security Act and Title V of the Job Training Partnership Act.

Health Care Access Fund accounts for a portion of the cigarette tax fees assessed from certain programs, and federal reimbursements associated with the uncompensated care pool; used for establishing a program of preventive pediatric health care services, universal immunizations and managed care community health centers.

The following funds have been enacted in legislation but are inactive for fiscal 2000:

Rate Payer Parity Trust Fund accounts for all personal and corporate tax revenues attributable to the sale of assets relative to electric companies and penalties and fees collected for the purpose of providing extraordinary assistance in achieving the required electricity rate reduction.

Danvers State Hospital Reuse accounts for first \$100,000 proceeds of sale, lease or other disposition of the Danvers State Hospital Disposition sites and is available for the needs of mental health clients formerly served by the Danvers State Hospital.

University of Massachusetts Lowell Wannalancit Complex Building Management Fund (inactive) accounts for revenues from leasing, operation, granting of concession or other use of the Wannalancit Complex; used to meet obligations related to operation and ownership of the complex .

Non-Budgeted Funds

SPECIAL REVENUE FUNDS:

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to finance specific functions. Those funds which are not subject to appropriation are considered Non-budgeted Special Revenue Funds.

Federal Grants Fund accounts for federal grants that are designated for specific programs, excluding federal highway construction grants, which are accounted for in the Federal Highway Construction Capital Projects Fund, and federal reimbursement programs, such as Medicaid, which are accounted for in the General Fund.

LOTTERY FUNDS:

To account for the operations of the State and Arts Lotteries.

State Lottery Fund accounts for revenue from sale of lottery tickets and for the payment of prizes, expenses of the State Lottery Commission and the distribution to municipalities and school districts. Transfers are made to the local aid fund.

Arts Lottery Fund accounts for revenues from sale of lottery tickets, for payment of prizes and the expenses of the State Lottery Commission, and for the administration of the Arts Lottery Council. Transfers are made to the local aid fund.

UNIVERSAL HEALTH CARE FUND:

To account for assessments and other revenues that are dedicated to making health care and health insurance accessible and affordable to all citizens of the Commonwealth.

Uncompensated Care Fund accounts for funds received from hospitals, transfers from budgeted funds and federal reimbursements; used for the purposes of the Uncompensated Care Pool.

Labor Shortage Fund accounts for assessments on each acute care hospital equal to one-tenth of one-percent of gross patient service revenues; used for training health care workers, career development within the health care profession, and establishment of day care programs at hospitals and other health care facilities.

Medical Security Trust Fund accounts for premiums, fees, and contributions; used for health insurance for workers receiving unemployment insurance.

OTHER FUNDS:

To account for a variety of miscellaneous taxes, assessments, fees, fines and other revenues which are restricted to the financing of specific Commonwealth programs.

Department of Telecommunication and Energy Trust Fund accounts for expenditures by the department of telecommunications and energy commission for activities of the department related to the regulation of electric companies.

Liability Management and Reduction Fund accounts for chargebacks assessed to departments as premiums for the provision of insurance coverage for state agencies to cover payment of judgements, settlements and litigation costs in tort claims.

Debt Defeasance Trust Fund accounts for transfers from general fund and highway fund for purpose of defeasing debt pursuant to chapter 55 of the Acts of 1999 section 6, 7 and 8, as amended and Section 13 and Section 17 of Chapter 87 of FY2000 provide for additional transfers to this Fund.

Health Care Security Trust Fund accounts for revenues received from tobacco companies under the tobacco settlement, interest income as well as expenditures for health related services and programs

intended to control or reduce the use of tobacco in the Commonwealth.

Civil Monetary Penalty Fund accounts for civil monetary penalties paid by nursing homes participating in the medical program for the protection of health and property of residents in a nursing home if the facility is found deficient.

MBTA Infrastructure and Renovation Fund accounts for expenditures related to funds appropriated to the MBTA for station renovations.

Government Land Bank Fund accounts for proceeds from disposition, conversion and redevelopment of land used for payments of principal and interest on bonds and notes of the Massachusetts Development Finance Agency.

Federally-Assisted Housing Fund accounts for federal financial assistance; used for payments of principal and interest on bond debt.

Oil Overcharge Fund accounts for the fines and penalties collected under federal litigation from certain oil companies; used to provide fuel assistance and weatherization for low income residents.

Environmental Trust Fund accounts for fines, gifts and grants; used for restoration, protection and improvement of the quality of Boston Harbor, Lynn Harbor, Massachusetts's Bay, Buzzard's Bay and Cape Cod Bay.

Children's Trust Fund accounts for gifts, grants, interest, and donations to the Child Abuse Prevention Board and certain appropriations designated to be transferred to the fund; used for support programs to raise awareness of child abuse and prevention programs.

Child Support Enforcement Fund accounts for Federal Grants; used for activities associated with the collection of child support.

Department of Industrial Accidents Special Fund accounts for assessments to employers and cities and towns for worker's compensation insurance

premiums and penalties assessed against employers who fail to insure for the worker's compensation; used to reimburse the general fund for the operating account of the Department of Industrial Accidents and for administrative overhead.

County Correction Fund accounts for approximately seven and one half percent of the deeds excise tax distributed to counties for the operation of county correctional facilities.

Massachusetts AIDS Fund accounts for gifts, grants, and donations; used for research, treatment, and education related to AIDS.

Board of Registration in Medicine Fund accounts for certain revenues and expenditures of the board.

Water Pollution Abatement Projects Administration Fund accounts for transfers from the Water Pollution Abatement Trust and General Obligation Bond Proceeds; used for the administration of the Department of Environmental Protection to fund water pollution abatement projects.

Commonwealth Sewer Rate Relief Fund accounts for transfers of amounts from the General Fund or other funds; used for the purpose of mitigating sewer rate increases and making sewer rate relief grants to municipalities.

Motor Vehicle Safety Inspection Trust Fund accounts for vehicle inspection fees for administration and operation of safety inspection programs by the registry.

Child Care Quality Fund accounts for expenditures by the commissioner of the Office for Children for providing grants for not-for-profit child care organizations for the purpose of improving child care services.

Grant Anticipation Note Trust Fund accounts for proceeds to cover GANS expenditures and pay the related debt service of the proceeds.

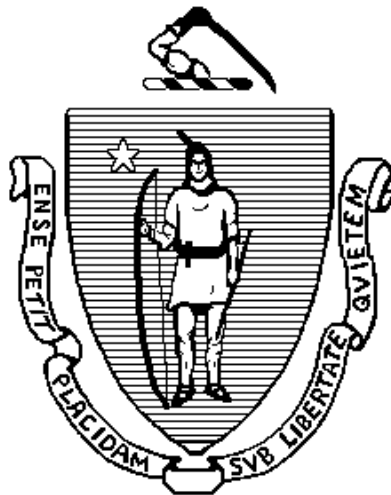

The following funds were closed in fiscal year 2000:

Freight Rail Fund accounts for certain fees for rights-of-way; used for acquisition, construction, prevention, rehabilitation, reconstruction, or other improvements of land, and real rights-of-way and related facilities or equipment.

Passenger Rail Fund accounts for certain fees for rights-of-way; used for acquisition, construction, preservation, rehabilitation, reconstruction or other improvements of land and real rights-of-way and related facilities or equipment.

The following fund has been enacted in legislation but is inactive for fiscal year 2000:

Energy Technology Development Fund accounts for monies received from miscellaneous trusts, gifts and donations to be administered and expended by the commissioner of the Division of Energy Resources to promote energy efficiency and the research development and commercialization of new energy technologies.

Capital Projects Funds

Capital Projects Funds are used to account for the financial resources used to acquire or construct major capital assets and to finance local capital projects.

GENERAL CAPITAL PROJECTS FUND:

To account for proceeds of bonds sold to fund the construction or acquisition of capital assets for general Commonwealth purposes, excluding highway construction and projects targeted for specific localities or purposes.

CAPITAL INVESTMENT TRUST FUND:

To account for a transfer from the general fund to fund appropriated items of a capital nature. Specifically in Section 107 2E of Chapter 88 of the Acts of 1997.

BOSTON CONVENTION AND EXHIBITION CENTER CAPITAL FUND:

To account for proceeds of bonds to finance the construction of a convention center in Boston.

CAPITAL IMPROVEMENTS AND INVESTMENT TRUST FUND:

To account for the commonwealth to reimburse cities and towns for expenses incurred for projects for construction and reconstruction of town and county ways.

CAPITAL EXPENDITURE RESERVE FUND:

To account for amounts paid by the Massachusetts Turnpike Authority as payment towards acquisition cost of the Third Harbor Tunnel and federal financial participation money related to expenditure amounts paid by Massachusetts Port Authority as determined by a feasibility study; used to pay principal and interest on bonds designated Highway Funding loan, related notes or direct capital expenditures.

HIGHWAY CAPITAL PROJECTS FUND:

To account for the proceeds of bonds sold to finance construction of state highways and to fund the Commonwealth's share of federal sponsored highway construction.

FEDERAL HIGHWAY CONSTRUCTION PROGRAM CAPITAL PROJECTS FUND:

To account for federal highway construction grants which, with the Commonwealth's required share of matching funds, finance interstate highways and similar projects within Massachusetts to promote a nationwide highway system.

LOCAL AID FUNDS:

Local Capital Project Fund

The Comptroller in Fiscal Year 2000 eliminated six Capital project funds set up by the Comptroller under Chapter 7A of the General Laws. The activity in these funds has become immaterial and has been consolidated into this fund. These six funds are the Lockup Facilities Improvements, County Correctional Facilities, State Recreational Areas, Metropolitan Parks, Suffolk County Jail Facility and Local Infrastructure Capital Projects Funds.

This fund accounts for the proceeds of bonds sold to finance the construction of correctional facilities, water pollution abatement projects and other local projects in specific localities of the Commonwealth. Accounts for the proceeds of bonds to finance improvements to lockup facilities, state police lockup facilities and to finance improvements to County Correctional Facilities, and other monies received by Department of Environmental Management pertaining to state parks, reservations and recreation areas outside the metropolitan parks district; used for purposes of state parks, reservations and recreation areas outside the metropolitan parks district.

Water Pollution Control Capital Projects Fund

accounts for proceeds of bonds, to finance grants to implement the Clean Water Act.

OTHER FUNDS:

To account for the proceeds of bonds used to to finance land and transportation equipment for economic development.

Government Land Bank Capital Projects Fund

accounts for proceeds of bonds; used to finance the acquisition, holding, protection, maintenance, repair or use of lands and for personnel and the administrative costs of the Massachusetts Development Finance Agency.

Intercity Bus Capital Assistance Capital Projects Fund

accounts for proceeds of bonds; used for the acquisition and leasing of inter-city coaches and for planning and other relevant costs.

Fiduciary Fund Types

Fiduciary Funds are used to account for assets held by the Commonwealth in a trustee capacity or as an agent for individuals, private organizations or other governments.

EXPENDABLE TRUST FUNDS:

Expendable Trust Fund accounts for various gifts, bequests or contributions held by the Commonwealth of which both principal and interest may be expended for purposes designated by the donor.

Revolving Loan Fund accounts for federal grants, investment and interest income; to be expended for loans to non-profit private entities to establish housing for individuals recovering from alcohol or drug abuse and for loans to local housing authorities.

Teacher Quality Endowment Fund accounts for funds to be paid in an incoming teacher signing bonus program to be administered by the department of education for the purpose of encouraging the best and brightest candidates to teach in public schools.

Unemployment Compensation Fund accounts for unemployment taxes collected from employers and held by the United States Treasury in the Federal Unemployment Trust Fund, from which funds are drawn for the payment of benefits to the unemployed.

NONEXPENDABLE TRUST FUNDS:

Nonexpendable Trust Fund accounts for various gifts and bequests held by the Commonwealth, of which only the income may be expended for purposes specified by the donor.

PENSION TRUST FUNDS:

Pension Trust Funds accounts for the assets, liabilities and fund balances held in trust by the State Employees' and Teachers' Retirement Systems for the payment of retirement, disability and death benefits to members of these retirement systems.

AGENCY FUNDS:

Agency Funds accounts for cash, investments held or managed by the Commonwealth on behalf of others. These include the investments made by cities, towns and local authorities in the Municipal Depository Trust, employees' contributions to the deferred compensation plan, annuity contracts held for lottery prize winners, local option taxes collected but not yet remitted, assets held in escrow accounts by the Commonwealth's court system and human service departments, child support payments collected or receivable and not yet remitted to custodial parents, and deposits required from insurance companies and similar organizations.

Supplemental Information

Calculation of Transfers – Stabilization and Tax Reduction Funds

Calculation Of Transfers: Stabilization Fund

June 30, 2000
(Amounts in thousands)

This statement is prepared on the statutory basis of accounting pursuant to General Law Chapter 29, Section 5c, Chapter 87 and Chapter 236, Section 79 of the Acts of 2000. It presents information contained in the official books and accounting records of the Commonwealth. Financial statements supporting this calculation are presented in the Financial Section of this report.

Part 1: Chapter 236, Section 79 of the Acts of 2000 directs the Comptroller "to the extent possible eliminate deficits in any fund contributing to the surplus by transferring positive fund balances from any other fund contributing to the surplus."

Undesignated fund balance (deficit) in the Operating Funds:

	Before Deficit Transfers	Deficit Transfers	Total
General Fund	\$ 3,703,797	\$ (2,979,782)	\$ 724,015
Highway Fund	(388,205)	388,205	-
Local Aid Fund	(2,545,629)	2,591,577	45,948
Undesignated fund balance after the transfers.....			\$ 769,963
Available to carry forward to subsequent fiscal year (per Schedule A).....			78,511
Consolidated net surplus before final statutory transfers.....			691,452

Part 2: Transfers to Debt Defeasance Trust Fund:

From the General Fund [according to Chapter 87 Sec. 13 (b)].....	250,000
From the General Fund [according to Chapter 87 Sec. 13 (c)].....	250,000
Consolidated net surplus before transfer to Capital Projects Fund.....	191,452

Part 3: Calculation of transfers to Capital Projects Fund:

Transfer from General Fund to Capital Project Fund (per Schedule B):.....	76,581
Net Consolidated surplus available for Stabilization Fund.....	\$ 114,871

Part 4: Calculation of transfers to Stabilization Fund:

From the General Fund, @ 60%.....	\$ 68,923
From the Local Aid Fund, @ 40%.....	45,948
Total Transfers.....	\$ 114,871

Calculation Of Transfers: Tax Reduction Fund

June 30, 2000
(Amounts in thousands)

This statement is prepared pursuant to Chapters 29 and 29B of the Massachusetts General Laws. It is prepared on the statutory basis of accounting and presents information contained in the official books and accounting records of the Commonwealth. Supporting information is presented in individual schedules, as indicated, and in the Financial Section of this report.

The computation is as follows:

Part 1: Comparison of Stabilization Fund, after current fiscal year transfers,
to 7.5% of Budgeted Revenues and Other Financial Resources:

Undesignated Fund Balance in the Stabilization Fund.....	\$ 1,608,382
Allowable Stabilization Balance (per Schedule C).....	<u>1,694,032</u>
Stabilization Fund Excess, if any, transferable to Tax Reduction Fund.....	<u>\$ -</u>

Part 2: Status of Stabilization Fund after transfers:

Stabilization Fund Balance.....	\$ 1,608,382
Transfer to Tax Reduction Fund.....	<u>-</u>
Stabilization Fund Balance after transfer to Tax Reduction Fund.....	<u>\$ 1,608,382</u>

Part 3: Status of Tax Reduction Fund after transfers:

Tax Reduction Fund Balance.....	\$ 7,203
Transfers from Stabilization Fund.....	<u>-</u>
Tax Reduction Fund Balance after transfers.....	<u>\$ 7,203</u>

Schedule A
FY2000 Tax Revenues By Revenue Class and
Calculation of Allowable Net Surplus

June 30, 2000
(Amounts in thousands)

Alcoholic Beverages.....	\$ 63,147
Banks: Commercial.....	92,451
Banks: Savings.....	375
Cigarette.....	279,945
Corporations.....	1,130,544
Deeds.....	127,371
Estate and Inheritance.....	166,511
Income.....	9,041,936
Insurance.....	306,018
Motor and Special Fuels.....	652,596
Public Utilities.....	82,983
Room Occupancy.....	137,005
Sales and Use.....	3,565,267
Club Alcoholic Beverages.....	621
Motor Vehicle Excise.....	151
Convention Center Surcharges.....	12,594
State Racing.....	7,829
Beano	5,264
Raffles and Bazaars.....	925
Boxing.....	21
Insurance: Excess and Surplus Lines.....	28,617
	<hr/>
FY 2000 State Tax Revenue.....	15,702,169
0.5% of Total Tax Revenue.....	78,511
Allowable Consolidated Net Surplus	<hr/> <u>\$ 78,511</u> <hr/>

This schedule is prepared on the statutory basis of accounting. It presents tax revenues as reported in the governmental funds of the Commonwealth. It differs from the schedule of tax collections prepared by the Comptroller, Commissioner of Revenue and State Auditor for calculations in accordance with Chapter 62F, as established by Chapter 555 of the Acts of 1986.

Schedule B
Calculation of Capital Project Fund Transfer

June 30, 2000
(Amounts in thousands)

Maximum Allowable Transfer Amount:

A: Consolidated Net Surplus available for transfer.....	\$	191,452
	X	40%
B: Maximum based on 40% of Consolidated Net Surplus.....	\$	<u>76,581</u>
C: Fund Deficits - Capital Project Funds.....	\$	<u>709,853</u>
Lower of the 40% of the Consolidated Net Surplus or sum of fund deficits in the Capital Project Funds at year end.....	\$	<u>76,581</u>
Amount Transferred by the Comptroller.....	\$	<u>76,581</u>

Schedule C
Calculation of Cap on Stabilization Fund

June 30, 2000
(Amounts in thousands)

Total Budgeted Revenues and Other Financial Resources pertaining to the Budgeted funds.....	\$ 26,221,102
Elimination of budgetary interfund activity (per Schedule D).....	<u>(3,634,013)</u>
Budgeted Revenues and Other Financial Resources pertaining to the Budgeted funds.....	<u>\$ 22,587,089</u>
Allowable Stabilization Fund - Balance, 7.5% of Budgeted Revenue.....	<u>\$ 1,694,032</u>

Calculation of Stabilization Fund Transfers as defined by Mass General Law Chapter 29 section 5c and as recently amended by Chapter 88 of Acts of 1997 and Chapter 175 of the Acts of 1998.

Schedule D

Detail of Elimination of Budgetary Inter Fund Activity

June 30, 2000
(Amounts in thousands)

Adjustments to Revenues:

Municipal Transit Assessments (RTAs Only).....	\$ (15,821)
Transfers to Intragovernmental Services Fund.....	(99,663)

Adjustments to Other Financing Sources and Uses:

MBTA Subsidy Transfer from Highway and Local Aid Funds to the General Fund (Authorities Deficiency).....	(154,430)
Stabilization Transfers - Year end.....	(114,871)
Fringe Assessed to Budgeted Funds.....	(23,916)
Transfer from Intragovernmental Services fund to General Fund.....	(3,547)
Transfer from Revenue Maximization Fund to General fund.....	(19,464)
License Plates.....	(3,447)
Transfer from Transitional Escrow Fund.....	(75,200)
Transfer from Collective Bargaining Reserve.....	(54,168)
Transfer to Children's & Senior's Health Fund	(36,952)
Transfer to Clean Election Fund	(10,000)
Transfer from Highway Fund to Authorities Deficiency Fund.....	(10,540)
MWRA Debt Service reimbursement.....	(4,435)
Transfer to Caseload Mitigation Fund	(22,091)
Transfer to close Commonwealth Cost Relief Fund	(3,837)
Chapter 34B County Pension reimbursement.....	(1,756)
Fund Deficit Elimination - Highway Fund.....	(388,205)
Fund Deficit Elimination - Local Aid Fund.....	(2,591,577)
Miscellaneous	(94)

Elimination of Budgetary Interfund Activity	<u>\$ (3,634,013)</u>

HIGHER EDUCATION NON- APPROPRIATED ACTIVITY

The Commonwealth's public institutions of higher education are allowed, by their enabling statutes, to collect, retain, and expend certain fees, rents, donations and other types of revenue. These financial resources are important elements to the overall financial operations of the respective institutions, and are in addition to amounts made available from appropriations.

University of Massachusetts System includes the campuses at Amherst, Worcester, Boston, Lowell, Dartmouth and certain institutes and programs operated by the Office of the University President.

State College System includes the nine state colleges which provide four-year post-secondary education programs.

Bridgewater State College
Framingham State College
Fitchburg State College
Massachusetts College of Art
Massachusetts Maritime Academy
Massachusetts College of Liberal Arts
Salem State College
Worcester State College
Westfield State College

Community College System includes the fifteen community colleges which provide two-year post secondary education programs.

Berkshire Community College
Bunker Hill Community College
Bristol Community College
Cape Cod Community College
Greenfield Community College
Holyoke Community College
Massasoit Community College
Massachusetts Bay Community College
Middlesex Community College
Mount Wachusett Community College
Northern Essex Community College
North Shore Community College
Quinsigamond Community College
Roxbury Community College
Springfield Technical Community College
